WHEN BACK PAIN HITS

What are the main causes of back pain? Most back pain is due to an injury to the soft tissues of the back, such as a muscle strain or a ligament sprain. Other causes include degenerative changes in the spine, such as arthritis or a herniated disc.

CALL FOR YOUR REGULAR EXERCISE EXAM NOW!

Many people who experience back pain do not know how to prevent it. A regular exercise exam can help you identify areas of weakness and develop a plan to strengthen your back muscles.
