GIRLFRIEND'S MIGRAINE MISERY
Q: My girlfriend has suffered terribly from migraine headaches as long as I've known her and for years before that. We're wondering about migraine and chiropractic.
A: When it comes to producing pain and anguish, migraine headache has few rivals. Typically, the pain arrives at one or both temples, spreads through the head and neck, and on occasion, even reaching into the chest area. It can be so severe that it makes patients see life-eyes a part of their lives, and very questionable, by the way.
