David Smart, Nicholas County School Board member said, any time a decision is made in a night this is not a good idea.
"John Chlevor said, no matter what decision is made the current policy should be carried through July 1, 1992."
Boogie Hall said, these people have been through a great deal and need to know what is going to be done in the next year.
"After an intense discussion on the board, council and others present at the meeting, the board decided to hold a special meeting next Monday night to decide whether to keep or discontinue the current student attendance policy."
The board rejected the two bids it received for the removal of dirt from baseball field.
Nicholas County is to host the district baseball tournament and Harrison County is trying to take the tournament away from Nicholas, because the field is not regulation because of right field dirt.
Lena and Fernell Edwards submitted a bid of \$11,400 and Honkies of Paris was \$10,600.
Gilbert made a request to the board that the bids were too high and the board agreed.
The board decided to see if it would be possible to host the tournament this year at West End Park if it would be regulation. Then when the National Guard returns and they see the Archdiocese who designed these schools.

"City sticker sales help pay for the services and utilities the city provides. Costs to run the water plant, and the sewer plant, and road repair, to name a few, in part are covered by sticker sales," Councilperson Ronnie Clark said. "This opinion was voiced by every member of the council. It doesn't cover everything, but it's an easier and less costly alternative than taking one per cent of people's paychecks," Mayor Hughes said.

Weight Loss Surprises Researchers

WASHINGTON—A National organization was hopeful that it personally complete "nutri-tech" food pills would help reduce weight problems, until a study revealed that significant weight loss.
"Although other studies and success may not agree, researchers in Europe found that the ingredient, a simple herb called, actually causes people to lose weight, even though specifically instructed not to alter normal eating patterns. According to one study published in the prestigious British Journal of Nutrition, researchers in an earlier study had speculated that the weight loss was due to an increase in the normal absorption of calories.
"The development of the product, Nutri-Tech Food Source One, a protein based food supplement, which is not used to successfully fill out a meal, but rather to replace a meal, has been improved with other ingredients. A Daytona Beach, Florida woman fighting a weight battle for 12 years used the product and lost 30 pounds in 12 weeks. She has lost 100 pounds, but she has not dropped any weight since. She has lost 100 pounds, but she has not dropped any weight since. She has lost 100 pounds, but she has not dropped any weight since."
