

We say blue, you say white...

The Nicholas County Lady Jackets Cheerleaders work to keep the fans motivated during one of the early regional tournament games. The Varsity cheerleaders worked under as strenuous conditions as their basketball playing counterparts on the court. In tight situations, crowd motivation was important to success and the cheerleaders met the task. Especially during the 10th regional final. During the long minutes as Clark worked and moved, looking for just the right shot, the Nicholas County fans sent shock waves through Bourbon County's gym.
