tions could come later.

Before going into closed session to discuss possible lit-Before going into crossus session to discuss possible lit-igation, the board discussed the problems arising from the adoption of new tariff proce-dures which run counter to original contractual ar-rangements. The contractual recording to Garten, the According to Garten, the previous water district board did remarkably well in the

years they worked to expand the water line system in the

the water line system in the county.

From the original 14 miles of line, the former board went on to expand those lines to nearly 44 miles, a significant achievement, he said, consid-ering the fact water rates re-mained almost unchanged for customers during that

manned almost unchanged arter extenses during that Many of those lines were extended as a result of indisands of dollars for the extended as a result of indisands of dollars for the extension. In order to receip some of the continuous control of the control

the new regulations under-stood. "We're bound by the deci-sions of the Public Service Commission. We understand that, but these people don't and they have every right to react when we inform them of changes as blundly as a nost. We need to be a little diplomatic in our appreach, Simons saill.
