I am Garvey Curtsinger, and a candidate for Nicholas County Judge-Executive. If I am elected to this office, I will be a full-time judge-executive. I will have no other responsibilities except serving the people of this county.

My office will be open to accommodate anyone having needs or concerns for this county. This office will be run in an orderly and efficient manner at all times.

I will work to bring small or large industries to this county and also work to keep the industries we already have located here. We need to bring as many jobs as possible into the county as well as keeping the ones we have.

I will work to bring 911 to this county at the lowest rate possible, as many people I have visited have asked for this service. 911 can be brought into your home for the price of two sodas a month.

I will check into every aspect of our rock quarry to make it a paying organization for this county.

My goal is to see every home in this county with city water even working with other counties to tie in their lines when possible.

I will work with the farmers to see what cash crops would be available to them.

The fiscal court, city council, all departments and organizations need to work together to have the finest county in the state.

I will make one pledge to the people of Nicholas County. I will be in Frankfort, Morehead, or wherever it takes to get any grant that is available for the needs of the county. I already know they are there and all we have to do is go after them.

I have tried to see everyone in the county. I am sorry if I have missed anyone. It would be a privilege for me to serve Nicholas County as your judge-executive.

Citizens And Voters Of Nicholas County

Let's Talk

* About **Qualifications**

My family and I are **Lifelong Residents** of Nicholas County
1960 **Graduate** of Nicholas County High School
Farmer - Lifelong - Primarily in beef cattle and tobacco
Business - My family and I own and operate Moorefield General Store
Magistrate - Three terms. I've been honored to serve the people of my district and Nicholas County for the past twelve years. This has enabled me to gain valuable experience about the workings of our county government.

* About **Commitment -**

I'll be a **Full-Time County Judge.** I'm currently making arrangements to limit my involvement in business and farming so all my time and energy will be devoted to being your next county judge.
I believe in an **open-door and open-book policy.** Your input at fiscal court meetings will be welcomed and encouraged. It's **your** county operated by **your** money. I will appreciate your help.
The Nicholas County Economy - we must recognize, protect, and improve allaspects of our economy.
Farming - Nicholas County has 100's of farms producing $100 in income. We mst have a county government that's sensitive and understanding to farmers needs and problems.
Small Business - Provides many jobs and opportunities in our county. We must promote, encourage, and help small business activity at all times.
Manufacturing - Jockey International is a major asset providing a living for many families in Nicholas County. Proper relations with Jockey and our county is vital to the Nicholas County economy. I'll work hard to keep Jockey in Nicholas County.

Improvements at our **Industrial Park** are needed to help draw other employers to Nicholas County.
Public Water Lines - I personally know the hardship of living without water. My goal will be to work non-stop until every household in Nicholas County has public water.
Roads - All county roads and bridges will be properly maintained, without exception. Major projects, such as Rt 68, funded by state and federal funds, will be worked for and hopefully become realities.
The Rock Quarry - The truth is our rock quarry is an asset, not a burden. It provides rock for ourcounty roads and income to our county budget by selling to the public. My plan is to stockpile rock of all sizes to increase our public sales.
Emergency Services - Our current ambulance service and fire department serves our county well. As county judge, I'll work to see these services, along with our police protection, has the proper equipment. Improvements will be made wherever possible.
Nicholas County needs and deserves a community center. This facility should include a public swimming pool and recreation facility for our young people. Also included, a public community room which could be used by local interest groups, such as senior citizens, church groups, veterans organizations, hunting and fishing organizations, used for public meetings of all kinds, and also private events such as wedding receptions, family reunions, etc. Facilities like this in other communities are used daily and benefit everyone. After public hearings, and with your approval and input, I would like to move forward to obtain state and federal funds so this can be accomplished.

***About TAXES**- April 1987. I was the **only** vote **opposing** the county **payroll** tax. We must operate our county government efficiently and with what we have. **I will continue my stand on taxes as your next county judge-executive.**
Like you, I'm proud to call Nicholas County home. **I only want the best for my family and yours. We can be the best: our championship Girls Basketball Team proved - We Can.**

Remember - This is the first county election since the voting places have been changed. If you have any questions about your voting place, or need a ride to the polls, please call 289 - 9139.

I thank you for your kindness and hospitality during the campaign and respectfully ask for your vote and support. Pull lever 13A
