

Citizens And Voters Of Nicholas County Let's Talk

* About Qualifications

My family and I are **Lifelong Residents** of Nicholas County 1960 **Graduate** of Nicholas County High School
Farmer - Lifelong - Primarily in beef cattle and tobacco
Business - My family and I own and operate Moorefield General Store
Magistrate - Three terms. I've been honored to serve the people of my district and Nicholas County for the past twelve years. This has enabled me to gain valuable experience about the workings of our county government.

* About Commitment -

I'll be a **Full-Time County Judge**. I'm currently making arrangements to limit my involvement in business and farming so all my time and energy will be devoted to being your next county judge. I believe in an **open-door** and **open-book** policy. Your input at fiscal court meetings will be welcomed and encouraged. It's your county operated by your money. I will appreciate your help.

The Nicholas County Economy - we must recognize, protect, and improve all aspects of our economy. **Farming** - Nicholas County has 100's of farms producing \$100 in income. We must have a county government that's sensitive and understanding to farmers needs and problems.

Small Business - Provides many jobs and opportunities in our county. We must promote, encourage, and help small business activity at all times.

Manufacturing - Jockey International is a major asset providing a living for many families in Nicholas County. Proper relations with Jockey and our county is vital to the Nicholas County economy. I'll work hard to keep Jockey in Nicholas County.

Improvements at our **Industrial Park** are needed to help draw other employers to Nicholas County. **Public Water Lines** - I personally know the hardship of living without water. My goal will be to work non-stop until every household in Nicholas County has public water.

Roads - All county roads and bridges will be properly maintained, without exception. Major projects, such as Rt 68, funded by state and federal funds, will be worked for and hopefully become realities.

The Rock Quarry - The truth is our rock quarry is an asset, not a burden. It provides rock for our county roads and income to our county budget by selling to the public. My plan is to stockpile rock of all sizes to increase our public sales.

Emergency Services - Our current ambulance service and fire department serves our county well. As county judge, I'll work to see these services, along with our police protection, has the proper equipment. Improvements will be made wherever possible.

Nicholas County needs and deserves a community center. This facility should include a public swimming pool and recreation facility for our young people. Also included, a public community room which could be used by local interest groups, such as senior citizens, church groups, veterans organizations, hunting and fishing organizations, used for public meetings of all kinds, and also private events such as wedding receptions, family reunions, etc. Facilities like this in other communities are used daily and benefit everyone. After public hearings, and with your approval and input, I would like to move forward to obtain state and federal funds so this can be accomplished.

***About TAXES**- April 1987. I was the **only** vote **opposing** the county payroll tax. We must operate our county government efficiently and with what we have. **I will continue my stand on taxes as your next county judge-executive.**

Like you, I'm proud to call Nicholas County home. **I only want the best for my family and yours. We can be the best: our championship Girls Basketball Team proved - We Can.**

Remember - This is the first county election since the voting places have been changed. If you have any questions about your voting place, or need a ride to the polls, please call 289 - 9139.

I thank you for your kindness and hospitality during the campaign and respectfully ask for your vote and support. Pull lever 13A
