## Census rounds up reports

A drive to round up report forms that have not been returned by farmers and ranchers in the 1992 Census of Agriculture has been started by the U.S. Bureau of the Census.

According to George Pierce, Assistant Chief of the Census bureau's Agriculture Division, ". . . the completeness and accuracy of the census depends on each individual filling out the census report form." Just as important, he says, is the time element; a true picture of the Nation's agricultural industry cannot be preented until the forms are returned.

Agricultural producers received their forms last December. Most have completed and returned them.

The census is the only source of comprehensive, consistent agricultural data for each county in the Nation. It is the basis for major decisions by farmer organizations, marketing associations, cooperatives, Congress, the U.S. Department of Agriculture, and Federal and state agencies. The data also are used widely by farm publications.

Individual reports are confidential by law and are used only to tabulate totals.

Advance reports for all counties, states, and the Nation will be published starting this fall. Reports will be available through the U.S. Government Printing Office as well as many universities, and depository libraries.

The girl's will play the first round of the regional in Cynthiana on Wednesday, May 26 against Bath County at 5:30 p.m.

# Taxpayers question returns

Many taxpayers are questioning the whereabouts of their 1993 state income tax refunds, according to officials at the State Treasury.

"The Treasury is currently waiting for the approval from Finance to cut over 100,000 refund checks. State Law mandates that the Finance Cabinet issue an official authorization for all state checks before being cut by the treasury," said Frances Jones Mills, State Treasurer.

The Revenue Cabinet accepts and processes the state income tax return dn then notifies the Finance Department if a refund is to be made. Once an authorization, called a warrant, is issued by Finance, he Treasury then writes a check.

"It's my standing order in the Treasury that all state checks are processed within 24 hours from when the official Finance order is received," said Mills. "After we print the refund check. it will be returned immediately to the Revenue Cabines for their immediate attention." "Certainly I am concerned for the taxpayers waiting for their refund checks, but the Treasury cannot issue the checks until Finance gives its approval," said Mills.

This went for farmers in Carlisle as well as those in other counties as well," remarked Mattox.

Other speakers included Ben Pumphrey, Betty Barton, Charles Guthrie, Rob Lane, Arnnette Flora, Gerald Hamons, G. C. Meyers, Esther Meyers, Joan Conley, Willmer Halcomb, Mary Halcomb, Bill Small, Kelly Rice, Jeff Perkins, Mrs. O'Bannon, Emily Wolfe, Phyllis Cox, Heather Mathes-Harris, Sherry Howard, Jim Galbraith, Sue Woodall, Roger Womack, Sue Rule, Pauline Caldwell, Mike Phillips, Betty Fay, Marjorie Wilson, Terri Sallee, Ginny Kingsolver, Gladys Shrout, Alma Clinkenbeard, Billy Hopkins and Ella Ritchie.

Another activity NCES students took part in included each class making one square of a school quilt, quilted by Charlene Dillon's mother Mrs. Craycraft, which will be put on permanent display in the elementary school's library.

"Monday is our biggest day of activities. It will be held in the library from 11 a.m. to 1 p.m. and will mostly showcase student's writing.

"Student's in the eighth grade will be doing the Virginia Reel, some will be networking on the computers with a school in Danville and videotapes of the various community speakers will be playing.

"And finally, we are making an effort at spreading our children's literary talent around the community. Many of our community grocery stores have lent us paper bags, some of the kids put their writings on them and and we will take them back so that when people get their groceries they can read what the children have been doing."

VALENT® ORTHENE® 75 Soluble Powder
EFFECTIVE TOBACCO-INSECT CONTROL PROGRAM
1. TRANSPLANT WATER APPLICATION
To control thrips, flea beetles, aphids, and cutworms apply 1 lb of ORTHENE per acre in a minimum of 100 gallons of setter water. This provides control of these early season insects for approximately three weeks.
2. SPRAYING WHILE CULTIVATING
Reduce spraying expense by applying ORTHENE while cultivating. ORTHENE is systemically taken up by the plant, therefore spraying as you cultivate gives continuous control of early season insects. Start applications 2-3 weeks after transplanting
APHID CONTROL
Spraying ORTHENE while plowing gives continuous early season control of aphids and will slow-down population growth, reducing the reproductive cycle. Because ORTHENE works two ways - first as a contact then as a systemic its benefits increase with each application.
ORTHENE RATE 1 lb. per acre foliar applied
EQUIPMENT NEEDED: Cultivating tractor, PTO driven pump or a self contained unit with an electric (battery) pump. Tank, and a sprayer with three fan nozzles per row.
It's simple, it's easy, it reduces spraying expense and protects the tobacco during the most critical time
Spraying ORTHENE while cultivating
ORTHENE takes you through the season
ONE PRODUCT - FULL SEASON
ALWAYS READ AND FOLLOW LABEL DIRECTIONS BEFORE APPLYING ORTHENE.
