SUMMER SAUSAGE

A fine, semi-dry sausage like the popular "Wisconsin" Smoked Sausage. To make this product we use your sausage with 25% fat, lean pork and carefully selected spices and ingredients. It is then smoked and fully cooked to develop the characteristic flavor. This takes a lot of time and labor and will be vacuum packed when you receive it if you like to share or give some of your deer meat away, this is a must-have item! The taste is outstanding, and it makes a great Christmas gift. Each sausage will weigh about three pounds after processing. Remember, we supply 25% pork, so ten pounds of sausage will make twelve pounds of sausage!

VENISON

This unique meat snack is somewhat like the familiar "Slim Jim", only better! The taste of this product (the true sausage) is just sensational! Your venison venison is mixed with 25% lean pork and other spices and ingredients. At set processing, each stick will weigh about an ounce (16 per pound). Five pounds of your venison will make a pound bag! This is a must-have item for deer hunters, an item you can share with family and friends and snack on all winter long!
