We invited members of a club that folded to become part of our club. Anyone interested in joining homemakers is invited to attend our meetings.

WRITE-IN
F. BUSSELL
Nicholas County Judge/Executive
As I campaigned before the May Primary, many people wanted a judge/executive that would be in the courthouse full-time; a judge with the administrative experience to run our government and manage our tax money; a judge that would work with city government for the benefit of Carlisle and Nicholas County. With the record number of candidates in the May Primary and as I ran a close second, many people have encouraged me to go the extra distance to be this judge.
I apologize for not getting around to see you again, due to the shortness of time, but I do encourage you to take the time and write in...

Church Corner

The following is an article written by a local church official, and does not necessarily reflect the views or opinions held by The Carlisle Mercury or Park Communications, Inc.

By Rev. Richard Gardner
Pastor, Oakland Mills United Methodist Church

I once heard a story about a farmer. It was said that this farmer raised the best apples in the state. His farm was very large and the boundary was marked by a line of apple trees. Every so often people would climb the fence and swipe some apples from the trees that surrounded the farm. They were always disappointed to discover that these apples were tasteless and mushy. They would immediately leave the farm and spread the word about how bad the apples really were. Eventually the whole town knew the truth about the apples.

One day the farmer stopped in the local general store. There just happened to be a number of local folks in there and they all kind of gathered around the farmer with the same idea on their mind.

One of the people spoke up and asked him, "Where's all the prize winnin' apples?"

A chuckle went through the crowd. Another person said, "All you got out there is rotten apples." There was another wave of laughter roll through the crowd. Some people seemed a little agitated.

Before the crowd could get out of control, the farmer raised his hands, signaling the people to be quiet. When they had finally done so, he began to speak, "Those apples around the boundary of my place are just there to keep out the fence jumpers that have nothing on their mind but swiping a few apples. The really good apples are in closer to the center of the farm, up by the farmhouse. That's where you'll find my prize winnin' apples."

This little story is an allegory of the church. It illustrates the way in which some folks view and respond to the life and activity of the local church. Some people just jump the fence and get only a taste. They live on the outer boundary and form their ideas about the church and its ministries from a distance. While others take the time and interest to press deep into the center, where the prize winning fruit is to be found.

It's important not to press the allegory too far, after all, God does not plant roses around the boundary to keep out people with a casual interest. However, the effect is still the same. Those who mistakenly criticize are usually those least involved and the result will always be non-constructive. If we jump the fence and find something distasteful, we need to press in closer to find out why it is so, to find out what we can do to help change the problem. We also need to find the farmer, get to know him and to live in the center, not on the outer boundary.

God calls us to be involved in the life of the church. Not so we'll be really busy and the church will be a really busy place, but so that we can grow in the knowledge of God and His kingdom. We are shaped and strengthened through our relationship with our church, our church family, and our Lord, and if we neglect that, we lessen our chances to get to know this farmer who has the best for us.

I encourage you to consider your relationship with your church and God.

And if you don't have a home church get out this Sunday and find one, who knows it might just save your life.

Rev. Richard Gardner conducts services at Oakland Mills UMC #68 every second and fourth Sunday of the month at 11 a.m.
