**Community Action to host safety program**

St. Jude Children's Research Hospital's "Bring A Bike Day" safety program will be conducted at Nicholas County Community Action Council Head Start Center. The program, to be held the week of April 25th, will encourage safe riding behavior among children and raise money to fight childhood cancer.

"Bicycle accidents are a major problem with American children," said Missy Lyons, director of the center. "According to the National Safety Council, there are an estimated 1,000 fatal accidents and 500,000 injuries a year involving bicycles. Bring-A-Bike Day" aims at making children aware of bike safety at an early age through the use of safety stores and special coloring sheets. By asking the children to show these safety messages to their parents, we are exposing these youngsters to good habits."

The storytelling and coloring periods will be followed by "Bring A Bike Day" on April 28th, when the children will put into practice the lessons learned. "It's like a final exam, with the children practicing on a supervised course we have laid out."

Parents of children at Nicholas County Community Action Council Head Start Center will be seeking pledges for St. Jude Hospital is the leading killer of cancer which, next to accidents, is the leading killer of children. For further information, please contact Missy Lyons, at (606) 289-7172.
