### Coach looks for good season

By Leigh Stone  
OF THE CARLISE MERCURY  
CARLISLE — Nicholas County football fans have much to look forward to this year, as the Nicholas County Varsity Football Coach Greg Letcher.

"I think we're gonna have a good football team. I think they will give 100 percent effort and do things to the best of their ability. We've looked forward to it."

In his sixth year of coaching Nicholas County, Letcher is also an introduction to business class. Several of this year's team have been at NCHS three years. "I think we've got some kids from last year's team who will be a big part of our success because of their experience. Their experiences will carry over to this year," Letcher said of Lyle's seniors. Eight return from last year with only one playing Nicholas County ball for the first time.

### GO BLUEJACKETS!

Practice has been held every night during the week ending late July, so Lyle's football team is ready for some action. Every night, they go at it for 1/2 hour, Monday through Friday. Letcher also commented on the younger players. "We expect our younger players to step up and be a part of what we're doing."

Safety is a big factor taught at Nicholas County. Letcher has a couple of team players who have been injured but are back on the field by the first game, Aug. 26 at Fleming County.

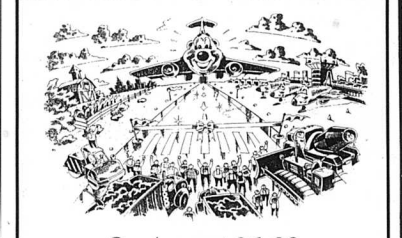

The first home game is Sept. 2.

"The kids do what they're asked. They've got a good attitude. I'd like to see them get off to a good start with our first game. We've got a tough schedule this year."

Coaches for this year include Greg Letcher, Jack Hayes, Chris Heath, Robert Higgins, Gary Williams, Mike Florence and

### On August 26-28 We'll Be Paving the Way for a Smoother Landing!

For the first time in its history, Blue Grass Airport will close to all traffic for 42 continuous hours. During this temporary closure, beginning at 9 p.m. August 26 through 3 p.m. August 28, the airport will be completely closed to all aircraft activity. We're sorry that we can't offer you a more convenient rescheduled.

"This is a small endeavor. In fact, we don't know of any other airport in the country that has completed such an extensive project in such a short period of time."

Resurfacing the runway is just one of the improvements we're making to modernize 4222 this summer. We've already begun installing an in-pavement lighting system, which will mean safer landings and fewer delays and cancellations.

Thanks for your patience throughout this construction process. We appreciate your continued patronage."
