Mayor Lee Dent said the 81 percent rise in sewer rates this year was necessary because the federal government had fined the city over \$4,000 for not beginning construction on the new sewer plant on time.

Tests that had found potentially unhealthy levels of lead in about one-third of Kentucky's school districts are cause for concern but state health officials have said.

The Nicholas County Youth organization is working out a plan to site a temporary youth center at Donald Brewster Hall's Spring '82 lounge until the construction of a new youth center can be completed.

MERCURY VAPOURS

Twist typing "Coke's" column (Kay's Kitchen) and trying to come up with something for this one leaves me a bit adrift.

Friday afternoon when I went north of the Ohio River to West Narbonne, I took my random number generator, a divide by 400 counter for which I hadn't been able to determine a practical use.

The young man who first supplied me with the circuit for the counter suggested that I continue on and make the grid get into a check.

He then handed me a handful of parts—seven light emitting diodes and about an even number of IC's (MSI 7440) drivers he called them. Even though this about went for 400 counter for which I hadn't been able to determine a practical use.

There is seldom a dull moment around this shop with its two electronic machines. They seem to sense that by a malfunction they can keep me on my toes. I never know which one will produce a copy like this one.

My daughter's a bit young to buy money a present, but she has me on Monday I'll be here every day of the year. It was a fun, and she was in the kitchen when I was drinking coffee.

More Nicholas Countyans are speaking up for what they believe is right. Friday evening a group of concerned citizens asked questions about the rules of the County Commission.

Arthur Robinson, acting director, Wildlife Department of Fish and Wildlife Resources, came from Franklin to answer those questions. It was good to see a qualified session where groups get together and discuss issues.

Burdorf Clark, game management forest foreman at Clay Wildlife Management, said he would be glad to talk to anybody about policy. He said he doesn't make all the decisions. "To get plenty of bosses," he said, adding that he enjoyed reading the feature story, "Old fashioned remedies cure ill 'Vee farm'" published in The Farmer's Pride The story entered on the farm records of Nicholas County School Board member Sherry Vee and his wife, Mary Anne. Mr. and Mrs. Vee and their two daughters, Debbie and Chloe, were pictured in the publication.

It's Teacher Appreciation Week. Thanka, Nicholas County teachers, for all you do.

Mrs. Tillie Hamilton Feback, who has been a member of the Carle High School faculty 30 years, has informed the city board of education that she is not a candidate for re-election. The junior class of Carle High School entertained 36 members of the Carle High School in the penny lunch room and a picture program at the picnic, Friday.

aided the county needs funds raised. Salary cuts are being put to rest money in county out-of-pocket work repair money of four county workers was paid for many months. Employees were named for the layoff at the April 28 fiscal court meeting.

My hope is that since those workers were good employees on the county payroll in the first place, the fiscal court will stand behind the workers in their new position by writing letters of recommendation and other whatever money management those county workers find employment. Good intentions don't feed families and everybody knows that.

I also praise the fiscal court for being able to make tough decisions for the county. I know his telephone would ring with calls from the citizens of the Carle Mercury.

I'm hearing good comments about the Mercury's new correspondent, a Debbie Richardson. Debbie writes the weekly social column, "New Morning Glory." She gave up full-time work two years ago to have more time for her elementary school children. She also does volunteer work at an elementary school. If you live near Debbie and have news, please call her at (606) 498-0232 or (606) 498-0201.

trooper Jan Wuchner and Trooper Tim Lays of the Dry Ridge State Police Post appreciate all those Nicholas Countyans and others who've taken time to call the post about marijuana plants. Wuchner called the Mercury office Monday afternoon. "We need community participation. We get so many criminal files from all the communities. We eradicated many marijuana plants last year. We did so equally well this year. We're very grateful to the community for their involvement." Call the state police at their old fax telephone number: 1-800-222-5555.
