Health Coverage for individuals left out in the cold!

Many don't have the luxury of belonging to a large group health insurance plan. Self employed individuals, small businesses and even families are often left out in the cold. So we designed a plan especially for their needs. This is not the 'take it or leave it' kind of plan you're used to being forced to choose. It has no deductibles on those services you use the most: physician office visits, prescriptions, in-office lab and x-ray. It's geared to corer prevention and detection. You'll have low co-pays, no claim forms, protection against catastrophic illness and predictable out-of-packet costs...so no surprises. Plus you'll get up to 10% savings for a healthy lifestyle.

You'll find our hospital and other services quite affordable. Feel better already...come in from the cold!
