For Help When You Need It Most

911 EMERGENCY

CALL 911 FOR POLICE, FIRE, MEDICAL

Every job is a gain. And gain is never small. —Robert Browning

Science

Nicholas Counties did a little sight-seeing. They visited Niagara Falls and the Hatfield Cafe which overlooks the Terrence Blue Jays stadium.
Green expressed appreciation for community support.
The community is been great. Morehead State University couldn't fund the trip this year. We certainly appreciate all the contribution on behalf of myself and my students. We couldn't have went there without everyone's help.
Smoot also expressed appreciation. I want to thank Kathy Green, Candace Gilbert, Mandy Abner, Cecilia Keams, she was the graduate assistant at the University of Kentucky who helped me with research procedures. Don Gluck at the UK College of Medicine, who let me work in his lab, the various community members and clubs like the Rotary Club and the Lion's Club, Deposit Bank, and Attorney Dawn Letcher, the Nicholas County Board of Education and various others. I hope I don't leave anyone out who helped with the trip.
Smoot is the son of Reese and Janet Kay Smoot of Carlisle.

Wills

George and Monday, Bretz and George had loaded several wagonloads of debris. "We've got three or more loads to do," he said.
The Willers are a couple glad to have each other after such an ordeal. They'll get over the loss of the barn, the roof, the air conditioner, the wire fence, and the wrought iron railing.
R. S. looked at Key and thought for a moment. "I don't even know where the railing is. I haven't seen it on our property."

They all work together and get it done. I do live in a neighborhood where you've got friends and doors.

for \$10,000. Thankfully, a friend had moved some equipment from that barn to another area just a couple of weeks ago.
R.S. praised everyone who helped put his home and farm back together. "They all work together and get it done. I do live in a neighborhood where you've got friends and doors. We've had both. We're very appreciative. The wire fence, stop by and help and I didn't even know who they were."
A nearby neighbor called the couple immediately after the worst part of the storm. R. S. said his neighbor "he couldn't leave his home. Electrical wire had the family hemmed indoors. The neighbor called Kentucky Utilities, which quickly responded to the emergency. "They were here by 5:30 that morning," R. S. said.
A company representative inspected the home before returning electric service, which made the couple feel some better. R. S. and Key have resided at the home for 32 years.
Looking out the shattered windows, the couple could see the barn owned by Parks and Lucille Stone. Part of the barn remains nestled in on Morehead field.
R. S. said someone with a bucket pushed the barn out of the yard early Sunday.
Also ruined in the storm was the couple's air conditioning unit. "I rewired the entire house. The wind twisted it and pushed

Beautiful waterfalls such as this one at Trelafair Falls, on the island of Dominica, were a highlight of the tour, said many members of the 2014 Engineering Company of the Kentucky Army National Guard.

Kentucky National Guardsman share island memories with Mercury readers

Sergeant Daniel "Baha" Faulconer enjoyed the three-hour tour of the Coast Guard boat that patrolled the island of Dominica during the Kentucky National Guards' stay.

The 2014 Engineering Company of the Kentucky Army National Guard, Carlisle, made the best of a C-130 flight during Annual Training's assignment at the island of Dominica near Barbados. Dwayne Koffler tried to catch live ZZ's. Also aboard were Robert Hopkins, Gary Ismael, Craig Ritchie, Larry Fritz and, facing the camera, Bobby Boyd.

The view of the Caribbean was a bonus as the Kentucky Army National Guard manned a work site to build housing for arms for the Dominica police. The 2014 Engineering Company also took gifts to a nearby orphanage.

Kentucky Army National Guardsman Jim Cubrath supervised the construction of the arms building being made for the Dominica police force. The guard list includes Major Clint and returned Easter Sunday, April 16.

The military vehicles known as tanks are so called because during their development in World War I these British inventors referred to them as water tanks to conceal their real purpose.

Jerry's

Family Restaurant

What comes to mind immediately is strawberry pie, breakfast anytime, fast friendly service or low prices. But Jerry's is also a great place to work as evidenced by our many long term employees.

Emma Moore is just such an employee. Initially hired in 1973, Emma has 22 years of continuous service.

So besides good hot fresh food, a wide variety of meals, friendly service, lunch & dinner specials & reasonable prices, Jerry's has that little extra in-hole most restaurants don't have. Long term experienced employees. You, too, can be a part of our family. Like the mariners we're always looking for a few good experts for women.
