Kentucky does not currently allow casino gambling, although some surrounding states allow it. Casino gambling should be allowed in Kentucky.	"DISAGREE. Casino gambling poses a whole new set of problems Kentucky doesn't need. Bingo for charities must be allowed."	"STRONGLY DISAGREE. I strongly oppose casino gambling in Kentucky."	"_____ I am opposed to casino gambling."	
Over 500,000 Kentuckians do not have health insurance. State government should devote greater taxpayer resources to insure health care coverage for those who do not currently have it.	"STRONGLY AGREE. But medical community must bear a greater private responsibility for health of whole community."	"DISAGREE. The solution to every problem which faces Kentucky does not require taxpayer dollars."	"_____. The health care reform enacted by the General Assembly will help make health insurance more affordable. Let's give it a chance."	
In 1994, the General Assembly imposed a 2 percent tax on doctors (2.5 percent tax on hospitals) in order to pay for the Medicaid program. This tax should be repealed.	**Candidate chose not to participate**	"STRONGLY AGREE. This tax will drive the really good doctors out of Kentucky. Only Kentucky and West Virginia have this tax."	"_____. I favor repeal if we can find an alternative source of funds to match federal Medicaid dollars."	
The death penalty has not been carried out in Kentucky for 33 years. The state should take action to prevent death row inmates from postponing their execution dates through a legal process that allows numerous appeals.	"DISAGREE. Our country provides strong safeguards for religious freedoms and individual rights and those processes should not be abdicated."	"AGREE. I will consider limiting taxpayer funded appeals by public defenders to state courts with possibly one Federal appeal."	"_____. Our judicial appeals process should not be used just to delay the decision of the jury and trial judge."	
Kentucky currently has few restrictions on the possession of firearms. The General Assembly should consider some limited restrictions on the ownership of guns.	"STRONG DISAGREE. We support the right of citizens who are not felons or adjudged incompetent to carry concealed firearms."	"DISAGREE. I oppose any further restrictions on the right to bear arms in Kentucky."	"_____. Until government can guarantee that law abiding citizens are safe in their homes we should not restrict their right to bear arms."	
Some people point to welfare programs as part of the cause for the increase in illegitimate births. Kentucky should stop giving increased benefits to unmarried women under the age of 18 who have additional children.	"DISAGREE. We should disincentivize additional children to single welfare mothers but not to those who prove intent of nutrition or other basic services."	"UNDECIDED. Welfare has contributed to illegitimacy and should be revised, but once a child is born we must protect it."	"_____. In our effort to help the disadvantaged we have created a system that encourages the wrong behavior. It should be changed."	
In the 1994 General Assembly, a bill was introduced to require abortion clinics to give their patients informed consent. Physicians should be required to tell their patients of the medical risks of the procedure and the development of their unborn child.	"AGREE. I support Roe v. Wade and informed consent doesn't seem to interfere with a woman's rights there under."	"DISAGREE. The government should not interfere with a woman's right to make a decision in her own way."	"_____. Potential patients for an abortion should have access to information regarding the medical risks and the development of the unborn."	
Some people point to growing school violence as further evidence that today's children are growing up without a sense of right and wrong. We should place greater stress on teaching traditional values in schools.	"STRONGLY AGREE. KERA accommodates declining away from high standards of literacy as well as discipline, right and wrong must be taught."	"STRONGLY AGREE. This a major plank in my platform."	"_____. Schools should decide for themselves what to teach. Under KERA, we will hold them accountable for what the children are learning."	
The current 9-month school year originated in the 1800s when boys were needed to help their parents farm during warm weather months. Kentucky should go to a 12-month school year.	"DISAGREE. Some adjustment might be warranted but let's still give kids a chance to still be kids."	"UNDECIDED. We should look at ways to improve education including longer school years. Twelve months is cost prohibitive now."	"_____. Under KERA, schools that want to go to a 12 month school year can choose to do so."	
The reliability of the state's educational testing system, called"KIRIS" has been questioned by some experts. Rewards and sanction for schools on the basis of these tests should be postponed until the reliability of the tests has been proven.	"STRONGLY AGREE. This mandated, expensive, annual pro KERA essay contest should be immediately discarded and the money spent on school technology."	"AGREE. The scoring system is flawed, causing frustration in students, teachers and parents, hurting morale and performance."	"_____. I have concerns about the test. We must have effective testing to determine whether our education dollars are being spent wisely."	
Term limits has recently become a national issue. We need term limits on state representatives and senators in Kentucky.	"STRONGLY DISAGREE. An informed and active electorate is the most efficient limit on terms as this election for Governor will show."	"UNDECIDED. I strongly favor a citizen legislature, however, term limits are a simplistic solution to a complex problem."	"_____. I am opposed to term limits. The people can limit terms by voting individuals out of office."	
If elected, please list your three top priorities:	*1) The elimination of corruption will allow Kentucky to adequately fund education, 2) law and order, and 3) health care. Only outsiders like us can get it done*	*1)Creating more jobs, 2) education, 3) restoring discipline in schools and dealing effectively with the problem of juvenile crime."*	*1) Improve our business climate, 2) bring good jobs to Ky., 3) provide a level of education to equip Kentuckians to become world class competitors."*	

Democratic candidate Steven "Butch" Maynard of Inez was unable to be reached after many attempts. Thus, his responses were not able to be included.

Be sure to take time on **Tuesday, May 23** to vote your conscience in order to make Kentucky a better place for all.

Kentucky Candidate Information Survey

◆The *Survey* is a non-partisan project of the Family Trust Foundation of Kentucky, a Kentucky educational, non-profit organization founded in 1989. The Foundation was incorporated in order to encourage and strengthen families and family life in our state. One of its objectives is to promote responsible, participatory citizenship.

◆The purpose of the *KCIS* project is to reliably report candidates' own views to Kentucky voters in order to improve: 1) voter knowledge of the candidates; 2) voter participation in the election; and, therefore, 3) the quality of the democratic process.

◆The *Survey* project was designed to be a neutral report of the candidate's views in his own words over a broad range of issues using a concise format. This issues-only, head-to-head approach avoids pushing a particular agenda but, at the same time, cuts through the political rhetoric often found in campaign literature.

For more information about the *Kentucky Candidate Information Survey* project, call (606) 233-3330.
