Memorial Day holds special meaning

By Congressman Scotty Bassler

It was the bloodiest of all wars. Like an uncontrollable wildfire, the Confederation Day as it was also known, since the Civil War was fought for freedom.

But more than any other uniquely American holiday, Memorial Day was created to cause us to pause and remember the sacrifice of the brave men and women who died in the defense of freedom and democracy.

Some were white. Some were black. They were young or old. They were from every part of our country.

They were the men and women who fought for freedom and democracy. They were the men and women who died in the defense of freedom and democracy.
