GENERAL NEWS

Mayor and council Tuesday night met to discuss the resolution procedure relating to the city's new water treatment plant.

When you think about it, it may seem like a simple matter. There have been some positive things about our city in just couple of years, Clark commented.

They couldn't believe we were doing our project. It sort of blew them away. I think it's a credit to the city, Kenney said.

Accidents.....

Continued from Page 1
1993 or 1994. In the Bluegrass Area Development District, of which Nicholas County is included, there were a total of 22,328 accidents reported - 103 people were killed and 9,125 injuries reported. There were 1,082 alcohol-related accidents reported in the Bluegrass ADJ with 39 people killed and 753 injured.

Major Clark said any complaints must be in writing with the person bringing the grievance able to prove their statement. It can't be verbal. It has to be in writing. The individual is liable. If they can't prove it, it's blander. Like if they say...

home. Seven years ago, the nursing home became a reality. We're on the cutting edge here. Some groups had an outside firm to do an assessment. They just write check. I don't know it that's the best way. Watts McKee said.

Watts McKee said her goal is for the community to be able to name their health care needs within the next 12 weeks. If community assessment isn't done, the road would be open for liability, corporate hospital operations to come in, taking over the community health care here, she said.

One possibility the committee already has discussed has been the inclusion of outlying areas of Boone and Milledgeburg as part of the local service area. "We may blend into areas outside the county line. They bring in money and resources in 1994. The lowest number of holiday fatalities occurred over New Year's holiday," stated the report.

The city's 760,000 water line extension project being the first in the state to be completed. State inspectors will visit Nov. 29. Officials already notified Clark the project, was done. The project, partially funded with state money, replaced lines through-out Carle, some of them as old as the early 1960s.

They couldn't believe we were doing our project. It sort of blew them away. I think it's a credit to the city, Kenney said.
