ARIES (March 21 to April 19) Joy comes from creativity, sports and other entertainments. Couples reach important understandings, particularly about finances. In general, agreements with others are easily reached. TAURUS (April 20 to May 20) Guard against being overly extravagant this week as you are tempted to throw caution to the wind and purchase that pricy item. A combination of drive and self-discipline brings career gains. GEMINI (May 21 to June 20) Stick up on home necessities since you've been neglecting your priority of late and need to replenish supplies. Family matters and dealings with financial consultants are heavily favored later in the week. CANCER (June 21 to July 22) Couples are faced with a family dilemma which needs to be dealt with in an expedient manner. Some one asks you for a special meeting. Be sure to attend it since it has far-reaching business ramifications for you. LEO (July 23 to August 22) While romance and leisure activities are favored early in the week, avoid a tendency to overdo. You also have an unfortunate tendency to exaggerate your importance this week when in the company of friends. VIRGO (August 23 to September 22) Although you want to sleep for some time, be careful not to over-sleep. A job you've been putting off can wait no longer. Stop procrastinating and get it in. Once again, a completed task can relax your cupolas into career gains. LIBRA (September 23 to October 22) If you're persistent on the workfront, you can make a great deal of progress and improve things as well. Later in the week, you have to fight against inertia in order to realize your goals. SCORPIO (October 23 to November 21) Social activities tempt you like the sirens of old. Fall 20) Early in the week, you are surprised by how much you can accomplish at work. If possible, take advantage of this and try to take off for an early long weekend. You've made significant effort to expand. SAGITTARIUS (November 22 to December 21) Couples need to review that romantic giddiness now.

TOIN APART

DEAR TOIN: I'm writing to you because I'm so upset and embarrassed. I can't tell anyone the about this. I am 60 and my daughter in L.S. She has been on her own since she was 18 years old and is unmarried, living in another state. When she left home, there were bitter words between us. In fact, I look forward to her visits since she moved out because she felt I was a widow (and was when she left). However, she stays always the same way. She and I have a horrible fight and we both say vicious things to each other. One she's back home, she calls me to tell me off and we stop speaking for a while. This last time, she called to say, we're not fluffing her for good. I'm devastated. What can I do about this? Despite our hard times, I truly love my daughter. Can you help?
