The flight crew arrived at 10:00 a.m. to answer questions and learn more about what the crew does.  
According to Johnson the crew normally flies one patient at a time, but are equipped to fly two patients when necessary. The medical helicopter can provide everything an intensive care unit and emergency room does. The majority of the crew members are hospital transfers for patients who have special needs. Johnson added they handle a number of cardiac arrest and trauma situations. The most frequently visited area by the flight crew is Eastern, Ky. Johnson also said there will be pick up for other hospitals if the crew is available. "If U.K., medical helicopter is out and flight crew is available they will pick up a patient."

**DeLuca coming to MSU Aug. 21**

**MOREHEAD** - Musician Tim DeLuca will bring his show to Morehead State University'sutton Auditorium at 8:15 p.m. Wednesday, Aug. 21. The performance is free and open to the public.

Described as a hypnotist and an "imaginist," DeLuca began his career in entertainment in an unusual fashion. After earning a master's degree from Sangamon State University in Springfield, Ill., DeLuca started working as a therapist in psychology and appearing before local groups. An Abolitionist, after seeing him perform, encouraged him to become a full-time entertainer. From these beginnings, DeLuca moved through the nightclub scene and Chicago's Second City to the college circuit. His show, which mixes stand-up comedy with audience participation, is considered one of the most popular acts on the National Association for Campus Activities circuit, which named him College Entertainer of the Year.

MSU's Student Government Association and Student Activities Council are sponsoring his campus visit. Additional information is available by calling 1-606-782-3271.
