**LETTERS TO THE EDITOR**

**Don't look back - Go forward**  
writer requests

Dear Editor: As you know I always enjoy reading your paper. At this time I would like to comment on several subjects. I was very pleased to hear of the Nicholas Co. Rd. Department's plan to build a new road. This has been planned for years. The road department does a good job and these men need a good place to work. I am pleased to see the new tenting shops in town. They are able to provide for the needs of the county. There is nothing wrong with the people here. We just need more to help people live better. We are all proud of our county and its people. We have a great deal more to build bridges, roads and water lines. This is due to the love of the land in our area. Our needs are much different than most of Central KY. We need to address many of these problems in 1996. The world has forever changed and we need to catch up. We can learn from mistakes, but we are no longer afraid to live in the past. Sincerely Yours, Alton Clay Stone
