This tobacco barn located on Abner's Mill Road was just one of many that were completely destroyed by what appears to have been a tornado that struck the Nicholas County area on Wednesday evening. According to witnesses near the areas of destruction, it sounded like two large freight trains as it touched down throughout the countryside.

According to witnesses, this mobile home belonging to Mary Riggs, was lifted approximately ten feet in the air before it was dropped in a twisted pile of metal and debris about ten yards from where it once stood. According to neighbor Tommie Bowles, the tornado like winds stripped away a dog pin located behind her home, and the force of the winds wrapped the dog around a nearby pole, however, the dog was not injured in the incident.

**Frogs**

If the frogs are taken by gun or bow and arrow, a hunting license is required. If taken by pole and line, a fishing license is required. If the frogs are taken with a gig or by hand, either a hunting or fishing license is valid.

**Anniversary**
