WHAT IS THE EDUCATIONAL PREPARATIONS FOR **PHYSICAL THERAPISTS?**

This is not a question answered easily or correctly by most individuals in today's society.

Physical therapists are college grad-ites, with such pre-requisite classes as psychology, biology, physics, statistics, chemistry, English, professional withou-and humanities. Once they have com-pleted a well-rounded basic college education, its time for them to agric to an accredited physical therapy program of their thines.

If accepted into a physical therapy program, the student is indensity stocked in sour helds as human anothery and physically, the stun, neuroactively, and many other medically related courses. While the program, the student will have many opportunities to agily and interprate calcisioner learned therefore into practice through extensive clinical education offered through a variety of practical settings. Circlassia' are scheduled periodically throughout the PT program for student in order to give them a large amount of hands on experience prior to graduation.

Depending upon the school chosen and the level of education of the program, the new graduate will have achieved a Bachelor's Degree or a Master's Degree in Applical therapy. The opportunity is open to them at this time, to confinue their education and obtain a PFD in physical therapy.

Finally, before beginning practice as a physical therapist, the individual must pass a licensing examination in the State in which they wish to practice, certifying them as a Licensed Physical Therapist, To be eligible for State licensing each year a Physical Therapist must complete accredited continuing education courses.

There is "much to learn" for the PT, and the educational process is forever ong
