WHAT IS THE EDUCATIONAL PREPARATIONS FOR PHYSICAL THERAPISTS?
This is not a question answered easily or correctly by most individuals in today's society.

Physical therapists are college graduates, with such prerequisite classes as psychology, biology, physics, statistics, chemistry, English, professional writing, and humanities. Once they have completed a well-rounded baccalaureate college education, it is time for them to apply to an accredited physical therapy program of their choice.

Depending upon the school chosen and the level of education of the program, the new graduate will have achieved a Bachelor's Degree or a Master's Degree in Physical Therapy. The opportunity is open to those at this time, to continue their education and obtain a PhD in physical therapy.
