Time Saving Tips

Create A "Great Escape"

NAPS - There isn't always time for a well-earned vacation when you need it. Even when there's no holiday in sight you can create your own. Three days a week try scheduling a Monday or Friday off. Next choose a getaway destination that's within a few hours of home, so you don't waste your relaxation time driving. What makes your interest? Hiking, rock climbing, water sports? Or maybe you'd prefer visiting a local historical or nature area. Oh, and there are more hidden treasures in the surrounding region than you realize - water drives, county museums, geological oddities, points of interest. The best part is that most of these local delights are free or low budget, so well.

Plus, most KRA Campgrounds also offer added amenities like a swimming pool, recreation opportunities, and information about local venues and attractions. If you're still not sure about anything or you need a KRA directory, call 1-800-4-A-Road. These easy-to-use directories have look-alike photos and word/phrase books complete with maps, directions, and hours of operation. To make your great escape even more economical, give camping a try. It's a lot easier than it used to be, especially with full-service campgrounds like KRA. Everything you need is right on the campground - clean rest rooms, individual hot showers, coin laundries, and a well-stocked convenience store.
