Physical therapists are college gradu-ales, with such pre-requisite classes as psychology, biology, physics, statistics, chemistry, Engles, professional witting, and humanities. Once they have com-pleted a well-rounded basic college education, its time for them to apply to

Il accepted into a physical therapy program, the student is extensively schooled in such fields as human existency and physicisty, life span, resurreations, and many chem residually related concerns. Within the program, the student will have many opportunities to apply and risorpillar disassooni learned theories told practice through extensive classification of the control o

Depending upon the school chosen and the level of education of the program, the new graduate will have achieved a Bachelor's Degree or a Master's Degree in physical therapy. The opportunity is open to them at this time, to continue their education and obtain a PTD in physical therapy.

There is "much to learn" for the PT, and the educational process is forever orgo-ing, as this ensures qually patient care in the professional field of physical there-py. We at the Physical Therapy Centers of Ashland, Crayson, Wheelenburg, and South Store are declared to providing each patient the most current therapy thorough treatment, and highest quality of care.
