As your Judge I'll work to see we get our share of State and Federal Money. Looking back at some of the projects that I've been part of in the past four years, that have been very important to our community. 1991 Service, which has been very beneficial to all of our community. City owned and operated Trash pickup, which is \$7.00 per household pickup, in this process creating three jobs for local employment. City land farm permit, cut our cost in hauling solid as well as lease payments. New water lines and fire hydrants, new fire truck, this has helped reduce our insurance rating on premiums on an average policy \$500.00 per year. Clean City Lake, Clean Water Plant, Clean Water, New Water Tower, to replace our dated systems. Two projects that will start this year. East end sewer project & Dorseyville Housing. The Clark Sewer will bring sewer service to 110 homes, reducing chances of potential health problems, where sewer is running on top of the ground, as well as an odor problem. Dorseyville Housing, Upgrade housing in this area where under normal conditions people could not afford to up grade their homes. If you are Applied For, Buy or Own the Following Grants: Water Line Replacement money Grants total \$290,000. CDBG Funds. RCAD Grant \$12,000.00 Sewer Work. Sewer Work East End Town \$400,000.00.
