

March 8-14 is Girl Scout Week

By Amy Hankins Managing Editor
Adaptive Gordon Law founded the Girl Scouts in America on March 12, 1912.
Girls have been encouraged to be educated and independent in their thoughts since the program began.

Letter to the Editor

Dear Editor:
As I read the letter to the Nicholas County that Doug Burkhardt wrote, I too recalled the same question on the questionnaire.
I attended the same meeting. In fact, it was sponsored by the Chamber of Commerce.

However, having lived in Nicholas County longer than Donna, I had a somewhat different reaction to the question.
I did not answer the question at all.
I try not to be negative and I could not think of a positive reason to ask someone to move here.

As I moved to the Paris area, I served as a member of the US 460 Advisory Committee through Bluegrass A.D.D. in Lexington, KY.
This covers the section of the road between Paris and Georgetown. Many of our local people travel this road each day to work in Scott County.

THE HISTORY CHANNEL
On March 13, 1997, a financial panic and depression began March 13, 1933, the American Girl Guides was founded. The name was changed to Girl Scouts in 1913.
March 12, 1993, Janet Reno became the first female U.S. attorney general.

1. The problems with the school which were listed all over the news in other places, which probably should have been kept in Nicholas County.
2. The inability of the two governing bodies to work together for the good of both.

3. The lack of an Industrial Park, at a comparable place for jobs in the county.
The secure feeling is wonderful, but sometimes we feel too secure and become complacent. While change for the sake of change is not good, however, there is always change. If we don't go forward we go backward. We need the local government to work together with the Industrial Board to

1. I don't have you with great deal of data we had to study. I have a state folder about one inch thick. It covers every idea you could imagine for this road.
2. The Paris Pike project is going to be a long one. I don't think it will be completed in five years. This is my personal view.
