After-school break

Steven Thornsburg, an eighth grader at Nicholas County Elementary School, takes a break as he waited in the warm September sun on a ride from school.

SunnysideHomemakersmeet

The Sunnyside Homemakers met on Tuesday, Sept. 15 at the Extension Office.

First we had a speaker talking to us about the United Way, then two more speakers telling us of some of newer services of Nicholas county Hospital and nursing home.

For our devotional today Lavina McFarland talked about "Jonah" and how we need to obey the Lord's calling. Phyllis Brady read a poem "My Creed".

We answered roll:call by telling of a school day memory.

Phyllis read the minutes of the last regular meeting. We filled out our new membership cards. We filled out our new handbooks starting this new year, with who to take each lesson. We sang grace and had a good lunch with Lavina supplying country ham.

For the lesson on "Gifts from Fabric Scraps", Lavina McFarland had made numerous things for us to see which were so cute and interesting and useful.

Our Bluegrass Area Meeting of all nine counties will be at Scott County High School, Oct. 4.

Meal reservations are to be in by Sept. 22.

The highly recommended speaker will be Dr. Mike Gatton - his enriching life experiences as a pastor, a teacher, a coach, a humorist and motivation speaker will be sure to keep our attention.

The next Sunnyside Meeting will be Oct. 20 at the Extension Office. Eleanor Bramel will have spaghetti and Phyllis Brady will give the lesson on "Our Water", and will take lesson on Thursday given b Connie Jones Ulooery and will also tour our water plant. Our next meeting we will exchange and reveal our secret pal gifts and draw new names.

Familiar site

As autumn breezes blow in, more and more tractors like the one above will be traveling the highways to haul farm harvests. This tractor and driver were spotted on Moore-field Road on Tuesday. Motorists should use extra caution during this time of year, as more of the slow-moving vehicles take to the road.

Note of Thanks

The family of Ashton James Patton (Gabe) would like to thank everyone for the flowers, money and cards during his death. We would also like to thank everyone for their prayers. We would also like to give a special thanks to Mr. and Mrs. Mark Hughes.

God bless you all

Did You Know?

(NAPS)—Tragically, some 4,000 fire deaths occur in U.S. homes every year. Too often, it's because people did not, or could not, get out of a burning home in time. Developing and practicing a home fire escape plan is the key to survival, according to the nonprofit National Fire Protection Association (NFPA), the official sponsor of Fire Prevention Week.

Pfizer Inc. and The National Council on the Aging (NCOA) recently created a pilot program called "HealthSkills Corps," which provides workshops to teach older Americans basic health skills for everyday living.

NCHS students write news stories about new track at high school

By Jessica Tillett

The Nicholas County High School is building a running track for their track team to practice on.

Doug Buchanan, the principal of Nicholas County High School, also says that he done football field. Mr. Bechanan was interviewed and said "The cost would be approximately $30,000." He also said that, "it would provide the track team a place to practice and for the community to walk." Another reason is to provide a place for the people in the community to walk and finally it would give students more opportunities for our youth. Hopefully the track will be done by next week.

By Jeremy Owens

The Nicholas County High School is receiving a new track. The NCHS will be receiving this track by the end of the week-end. The track will be open to everyone.

The Hinkle Construction Company will be building this track. It will be two-hundred meters around, have a sixty meter starting shoot, and four meters wide. This will cost the NCHS $30,000 and will be located across from the football field.

By Breanne Young

Nicholas High School is building a new track for the Nicholas High School Track Team. Hinkle Contracting Corporation from Paris, are the contractors that is building the track. The track will be at the N.C.H.S. back behind the football field. The track will be 200 meters round. The track will cost around $30,000. The contractors will start 9-11-98 and will finish this week. Mr. Bechanan said "The school is building the track for the track team to practice, provide an opportunity for our students and our community."

Eight years ago the high school track was taken up. This year, 8 years later, Hinkle Contracting Company, from Paris has a group of construction workers building a new track. It will cost about $30,000 dollars. The surface is made of some sort of I.D. type of surfacing. It is a very smooth graded type of surface. The track will be done around the 18th. It is going to be 200m round by 4m wide. The starting shoot is 60m long. The track will look well, if I can say so myself. The construction workers get paid anywhere from $15 an hour to $19 an hour, on this job.

By Christine Sampley

Nicholas County — It's been almost nine years since Nicholas County has had a track for students to run on, but on the morning of September the 11th 1998, the Hinkle Construction began moving sod so that the track would be level. The track will be two-hundred meters around, have a sixty meter starting shoot, and four meters wide. This will cost the NCHS $30,000 and will be located across from the football field.

Today Hinkle Contracting Company in Paris Kentucky has come to Nicholas County High near the football field to make a running track. This particular track is made of an IO surface, it is a certain type of blacktop that is softer and easier on the human bones. This track will cost $30,000. Hinkle Contracting will be doing this from September the 11th through the 18th.

This track is not only for the Nicholas County track students, but for the whole school and the community of Nicholas County.

The average construction worker only moves their fingers flipping buttons for 14 to 15 dollars per hour. But then again they do get the job done. Now are our tax dollars going to use or not, you decide?

By Jackie Baney

The Nicholas County School district has decided for a new track for our people to run. Also the Nicholas County students who wanted to join track could have something to run on. So they have talked about getting one, so they called a group of men out of Paris, Kentucky. Mr. Bechanon did ask them what would it cost to build a 200 meter track, with a 60 meter start shoot and 4 meter wide. The man told Mr. Bechanon around 30,000 dollars. They said their business name was the Hinkle Contracting Corp. So he said OK, when can you men get started? They said whenever, so they are out there now working.

By Judy Petitt

The Nicholas County High School is having a new track built. The track is being built for the students and for the public.

The track will be 200 meters around, 60 meters start shoot and 4 meters wide. The track will cost around $30,000. It will be located near the football field. The track started being built on Sept. 11, 1998 and should be done around Sept. 18, 1998. The company is called Hinkle Company.

By Nick Taddeo

New track is being built at Nicholas County High School next to the baseball and football field. The track is being built to provide the school and the community a place to walk and run around. The cost is about 30,000.
