NOTICE TO CUSTOMERS OF KENTUCKY UTILITIES COMPANY
FOR APPROVAL OF AN ALTERNATIVE METHOD OF REGULATION

PLEASE TAKE NOTICE that, on October 12, 1998, pursuant to the Kentucky Revised Statutes, Kentucky Utilities Company ("KU") filed with the Public Service Commission ("Commission") in Case No. 98-474, an Application for Approval of an Alternative Method of Regulation of its Rates and Service ("the Application"). The Application requests that the Commission approve an alternative method of regulating KU's rates and service, as well as an Electric Performance-Based Rate ("EPBR") Tariff. The Application, if approved, will change the method of regulating KU from the traditional rate-of-return method of regulation to a method based on KU's operating performance. The EPBR Tariff, if approved, will be applied to customers' bills so that customers will share on a timely basis in the benefits of future improved performance accomplished by KU.

The proposed EPBR Tariff would apply to all electric rate schedules and special contracts for electric service. The monthly amount computed under each of the rate schedules to which the EPBR Tariff is applicable shall be increased or decreased by the Electric Performance-Based Rate Adjustment Factor at a rate per kilowatthour of monthly consumption during the billing calendar quarter computed as follows:

EPBRAB(q) = EPBRAU(KWH(q)

EPBRAU(q) = FCR • MDS • GP • SQ • BA

Where:
EPBRAF = Electric Performance-Based Rate Adjustment Factor
EPBRA = Electric Performance-Based Rate Amount for the current quarter
FCR = Fuel Cost Recovery
MDS = Merger Dispatch Savings expressed as a credit
GP = Generation Performance expressed as a credit
SQ = Service Quality
BA = Balancing Adjustment
KWH = Kentucky jurisdictional Kilowatt-hour Sales in the current quarter
q = Current quarter shall be the second calendar quarter preceding the billing calendar quarter in which the EPBRAF is billed

KU also is requesting that the Commission approve the withdrawal of its Electric Rate Schedule Fuel Adjustment Clause after all fuel costs are collected pursuant to the Uniform Fuel Adjustment Clause Regulation (807 KAR 5:056) and final orders are issued in the pending fuel adjustment clause cases of KU concurrent with the approval of the EPBR Tariff, and KU is further requesting that the Commission approve conditions permitting greater tariff flexibility in the future.

The Commission's Order of September 12, 1997 in In the Matter of: JOINT APPLICATION OF LOUISVILLE GAS AND ELECTRIC COMPANY AND KENTUCKY UTILITIES COMPANY FOR APPROVAL OF MERGER, Case No. 97-300 directed KU to elect whether to maintain under traditional rate of return regulation or alternative regulation and file detailed plans to address any future rate regulation. The Application, alternative method of regulation and the EPBR Tariff described in this Notice are the plan, regulatory method and tariff proposed by KU in response to the Commission's Order of September 12, 1997. The Commission's review of KU's Application may result in a method of regulating KU or consumer rates other than the method of regulation and rates described in this Notice.

Any corporation, association, body politic, or person may, by motion within thirty (30) days after publication or mailing of this Notice, request leave to intervene in the case before the Commission (Case No. 98-474). Any such motion shall be submitted to: The Public Service Commission, 730 Schenkel Lane, P.O. Box 615, Frankfort, Kentucky 40602, and shall set forth the grounds for the request for intervention, including the status and interest of the party requesting intervention.

Intervenors may obtain copies of the Application and corresponding Testimony by contacting: Ronald L. Willhite, Vice President of Regulatory Affairs, Kentucky Utilities Company, P.O. Box 32030, Louisville, Kentucky 40232-2030. Copies of the Application and Testimony will be available for public inspection at KU's offices where bills are paid after October 12, 1998.
