- Distinguished Jurist in Residence

Paid for by Wintersheimer for Supreme Court  
Eileen Kramlich, State, 32 Summers Dr., Ft. Mitchell, Ky 41011

## HALLOWEEN SAFETY TIPS

### TRICK OR TREAT- OCTOBER 29, 6PM-8PM

It doesn't take the magical powers of a witch or the strength and speed of a superhero for your little trick-or-treater to have a safe Halloween. If children follow some simple safety tips while roaming through their neighborhoods in search of candy, even mere mortals can have a frightfully good time.

**These general rules can prevent a Scary Experience**

- Apply face paint or cosmetics directly to the face. A loose-fitting mask can obstruct a child's vision. If a mask is worn, make sure it fits securely and the eye holes are large enough for good vision.
- Look for flame resistant labels on costumes, masks, beards and wigs.
- Use fire resistant material when making homemade costumes.
- Avoid costumes made out of flimsy material and outfits with big, baggy sleeves or billowing skirts because they are more likely to come in contact with an exposed flame.
- Give trick-or-treaters flashlights.
- Make costumes short enough to avoid tripping.
- Secure hats so they will not slip over a child's eyes.
- Dress children in shoes that fit. Adult shoes used for costumes are not safe for trick-or-treating.
- Allow children to carry only flexible knives, swords or other props. Anything they carry could injure them if they fall.
- Teach children to stay on sidewalks instead of cutting across yards. Lawn ornaments, tree branches and clotheslines are hidden hazards in the dark.
- Remind children to stop at corners, look left, right and left again before crossing the street, and never dart from between parked cars.
- Tell children not to eat treats before they are checked at home for tampering. Check each piece for puncture holes in wrappers or candy that has been unwrapped and repackaged. Adults should try to notice treats given at each home in case there is a question later. Suspect items should be reported to the police. Discard homemade treats. Fruits should be inspected closely for punctures and cut open before a child eats it. Some communities provide free x-rays of trick-or-treat items.
- Teach your child his or her phone number.
- Instruct older children to travel only in familiar areas and along an established route.
- Set a time for older children to return home.
- Instruct children never to enter a home or an apartment building unless accompanied by their supervising adult.
- Restrict their trick-or-treating visits to homes with porch or outside lights illuminated.
