## Project Graduation and Project Prom receives \$500

The Malt Beverage Education Corporation presented Nicholas County High School with a check for \$500 to help sponsor this year's Project Graduation/Project Prom activities. Senator Ed Miller who serves on the board of the Malt Beverage Education Corporation presented the check to Nicholas County High School principal Doug Heebman. Nicholas County was just one of the 177 schools that applied and were chosen to receive this money. It is critically important to provide youth and young adults with the proper environment to celebrate the Graduation and Prom season. Project Graduation and Project Prom programs are productive and highly successful and MBEC sponsors Nicholas County High School's efforts in making these available to the student body. MBEC applauds the efforts of Phillip Gosholtz, Project Graduation Coordinator and Principal Doug Heebman for dedicating their time to this worthy cause.

## Jockey presents check to Jarett's Joy Cart

Jockey International, Inc. employees from the Carlisle Sewing operation are making a contribution to "Jarett's Joy Cart." Jarett Mynear, a Nicholasville boy, has been battling cancer for most of his 10 years. Jockey International employees became particularly interested in helping with Jarett's Joy Cart since he is the nephew of employees Yvonne Hinton and Rita Mynear and the grandson of the Jockey retiree, Mildred Mynear. While at UK's Markey Cancer Center last summer for a bone marrow transplant, he remembered that while he was a patient at the Hutchinson Cancer Research Center in Seattle that volunteers traveled the wards dispensing toys from a cart to boost the spirits of young patients facing terrible diseases. After his bone marrow transplant, Jarett told his parents, Doug and Jennifer Mynear, that he wanted to arrange for a toy cart at UK Children's Hospital. Through donations from businesses, individuals and agencies, Jarett started making rounds in late March. Jarett, accompanied by his mother, Jennifer, and younger sister, Claire visited the Jockey International plant Thursday afternoon, April 8, to accept the donation of several boxes full of gift items as well as a monetary contribution presented to Jarett by the Jockey International, Inc. Sewing Operation Plant Manager, Warren Skiles. Mr. Skiles stated, "We are very pleased that our employees are taking an active part in helping Jarett." "What an unselfish, caring and mature young man. We could all probably learn a lesson about caring for others from Jarett and his family."

## Living will, power of attorney helps medical care decisions

Medical technology has become so advanced that an individual can be kept alive on machines almost indefinitely. If one chooses not to be on these machines, a living will is one way to assure that one's wishes will be honored, according to Brumagen. "An attorney is not needed in order to complete a living will, however it is advisable to consult with some person considered qualified to assist in completing the proper documents," he said. A living will does not guarantee that you will not be kept in order to complete a living will, however it is advisable to consult with some person considered qualified to assist in completing the proper documents," he said. There is a lot of information about living wills and power of attorney and most information can be found through a local attorney. To obtain more information on living wills and power of attorney, AMHC will be offering this class again on April 22 at 7:30 p.m. at the Nicholas County Library. family member, attorney's office, physicians office, or a safety deposit box is a good location. Candace Heebman, a representative with AMHC informed those present that the hospital would be happy to keep a copy of the living will in a patient's file. She added that if grandmothers watch grandchildren often or on a regular basis, it would be good to have an authorization form filled out by the child's guardians, allowing them to handle all medical emergencies in case of their absence. There is a lot of information about living wills and power of attorney and most information can be found through a local attorney. To obtain more information on living wills and power of attorney, AMHC will be offering this class again on April 22 at 7:30 p.m. at the Nicholas County Library.

## To the bayou or windy city... Nicholas County students enjoy spring break trips

Honor Society students take time out for a photo at the United Center Museum of Modern Science & Industry during their trip to Chicago. From left front row: Ashley Duff, Anna Allison and Courtney Dale. Top row: Megan Darrell, Jenci Smith, Ashley Hamilton and Beth Grimes.

Nicholas County Students have been hopping all over the country during spring break. The Senior Class took a four-day trip to Alabama, Mississippi and Louisiana. The eighth grade Honor Society students took a two-day trip to Chicago. Around 55 members of the Senior Class participated in the all-will-week in the bayou. They visited lots of places like the S.S. Alabama, the Hard Rock Cafe, Planet Hollywood, Anne's Alligator Farm and took river boat cruises. Judy Waggoner, one of the chaperones for the senior trip said "We missed out on some of what we wanted to visit, especially the "funky butt" (which was an eight club owned by one of their tour guides), and some of their tour guides, and some of the museums and old graveyards, but I think the students had a terrific time. The seniors weren't the only ones on the move. The eighth grade Honor society students took a two day trip to Chicago on Thursday, April 8 - Friday, April 9. Approximately 16 kids participated in the trip. While in Chicago they visited the Sears Tower, China Town, NBC Studios, Harpo Studios (the home of Oprah), The United Center, Museum of Modern Science & Industry, Magnificent Mile (a big shopping strip), Planet Hollywood, Rainforest Cafe, Hard Rock Cafe and FAO Schwarz. Kyle Harmon and Adam Hunter said "The best part had to be seeing the country's biggest top store, and oh yes, meeting MTV guest DJ Jesse Camp. Although the trip is over and its back to school and testing, the students are sure to remember those days with the hundreds of pictures they brought back."

Seniors, Jennifer Peters, left and Kevin Boat found a good way to relax. If we just stay here we will get plenty of sun, and not have to worry about any more school work, just wait I'm getting kinda hungry.
