Bosnia Mission Trip Diverted to El Salvador

LOUISVILLE---A mission trip to Bosnia for 30 Baptist students form 12 Kentucky colleges and universities sponsored by the Kentucky Baptist Convention is being diverted to San Miguel, El Salvador due to the ongoing fighting in Yugoslavia.

The May 13-29 mission was originally scheduled to assist with construction projects in Sarajevo but the U.S. State Department is now warning Americans against traveling to Bosnia.

The group will now work to assist with Hurricane Mitch recovery as part of a mission project sponsored by the Campus Ministries and Brotherhood departments of the Kentucky Baptist Convention. Hurricane Mitch slammed into Central America in October 1998, leaving thousands without shelter or adequate drinking water.

The College Changers, formerly known as the "Bosnia Changers," will build homes and clean wells in San Miguel and outlying villages. The students will also lead backyard Bible clubs, host block parties and organize sporting events.

"We're going to be ministering in villages where the people have been devastated," explains Ralph Quinn, director of student missions for the Kentucky Baptist Convention. Hopkins hopes the mix of mission activities will open doors for the Kentucky students to effectively minister to Central Americans.

Building materials for El Salvador are being supplied through the disaster relief program of the California Baptist Convention Brotherhood Department. However, missionaries in Bosnia have requested that the Kentucky group still send building supplies. Donations to purchase building supplies for Bosnia can be sent to the Brotherhood Department, Kentucky Baptist Convention, P.O. Box 43433, Louisville, Ky., 40253-0433.

For more information call the Campus Ministries Department at (888) 254-5723.

NICHOLAS COUNTY SCHOOLS
SPECIAL NOTE

TO: Parents, Guardians and School Employees

FROM: Mr. Gerald Hammons, LEA Designee

SUBJECT: Asbestos Management Plan for the Nicholas County Schools

DATE: April 1999

This notice is sent to assure you that the Nicholas County School System is in compliance with both national and state regulations and laws relating to building materials which contain asbestos that have been used in building construction in past years.

An inspection of our building materials which contain asbestos has been completed for all school buildings owned, leased or otherwise occupied by the Nicholas County Schools. This inspection has been conducted by a certified inspector, and the material samples were evaluated by an accredited laboratory. Building materials containing as little as two percent (2%) asbestos or assumed positive have been identified and made a part of an Asbestos Management Plan for the school system.

A complete Asbestos Management Plan for the school district is available at the Central Office or in the Principal's office of each school during regular business hours.

We will continue to notify you at least once each year on the status of the Asbestos Management Plan. Should it be necessary, more frequent updates will be issued as a result of an additional inspection, normal surveillance practices, response actions or remodeling work which might disturb building materials which contain asbestos. Every precaution will continue to be utilized in order to protect the well being of students and employees of the Nicholas County Schools.

Gerald Hammons
