KIPRC, a partnership between the University of Kentucky and the Kentucky Department of Public Health, studies the numbers and types of injuries among children...

Each year, about 70 percent of the deaths of Kentucky's children under the age of 1 are caused by injury. Motor vehicle crashes, which killed 123 school aged children in 1997, are the No. 1 cause of death.

Seaballs and child safety seats save lives, but only if used properly every time you get into your car.
