Stock Cows and Calves: individual medium frame #1, indicating 4-5 years of age with a 285 lb. calf at side, 730.00 per head.

HINTS FOR HOMEMAKERS

How Do Turkeys Get Ready For The Holidays?

(NAPS)—They take a bath of course. Before your bird gets to the supermarket the USDA requires that all poultry receive a disinfectant... A well-planned turkey dinner can be as healthy and delicious as any other holiday meal.

An excellent defense against Salmonella and other harmful bacteria...

Record NEWS

Looking At The New Millennium: New Windshield Wiper Technology

(NAPS)—Over the last 100 years, automotive engineers have developed numerous wiper technologies which have reduced the number of accidents and fatalities on the highway.

The windshield wiper, which helps drivers a clear view in inclement weather, was first introduced in 1910. The wiping element was a carbon-based polymer squegee, which would generally wear out within a year and need to be replaced.

Fortunately, a new kind of wiper technology may ultimately make "disposable" blades a thing of the past. A new wiper blade made with silicone rubber, a material designed to stand up to the deterioration of traditional wipers.

These non-disposable wipers are available from Triplodge, which offers a guarantee that the wipers will last as long as you own your car.

Triple Silicone Blades are available at Wal-Mart and Kmart. For more information, call 1-800-517-7600 or visit the website at www.triplodge.com.
