## Your Horoscope by Natasha

**ARIES** (March 21 to April 19) A steamy romantic interlude has the capacity to change the way you view the world. Just make sure you're not seeing matters through completely rose-tinted glasses.

**TAURUS** (April 20 May 20) Others may be inspired by your forward-looking attitude. A practical assessment of your co-workers' skills wins everyone a place on the team.

**GEMINI** (May 21 to June 20) Others may be channeling events along a course that is not in your best interest. This is a good time to be selfish about your needs.

**CANCER** (June 21 to July 22) Your natural enthusiasm for life can carry you through a trying period. But add a touch of humor for a little light comic relief.

**LEO** (July 23 to August 22) Become a part of something rather than turning it into a part of you. You have absolutely no tolerance for other people's foolishness.

**VIRGO** (August 23 to September 22) Believe it or not, that little voice inside your head really does have an off switch. Try to stop worrying long enough to enjoy that which you've recently gained.

**LIBRA** (September 23 to October 22) Your movements are efficient, and your stride is filled with purpose. With such force and dedication behind you, success is inevitable.

**SCORPIO** (October 23 to November 21) An old habit may become too expensive to continue. A change in your domestic sphere bodes well for the future.

**SAGITTARIUS** (November 22 to December 21) Time flies when you're having fun, but remember to stop for a rest at some point. Make sure that you're not neglecting any important responsibilities.

**CAPRICORN** (December 22 to January 19) You are cursed with the task of explaining jargon to someone who has a literal mind. Take a deep breath and try to stay calm.

**AQUARIUS** (January 20 to February 18) The subtleties of other people's emotional states are obvious to you. Make your own statement with flowers and an apology if necessary.

**PISCES** (February 19 to March 20) Be patient or you will only generate more hysteria in the midst of a complex situation. If you feel unable to move forward, why not try backing up a few steps.

**YOU BORN THIS WEEK:** People who try to understand you on a rational level generally fail miserably. You are an intuitive, sensitive and creative creature who operates on a different realm. Many gravitate to your theatrical talent and dramatic flair, only to be put off by your temper tantrums.
