Your Horoscope by Natasha

ARIES (March 21 to April 19) Now is one of the times when you are content to simply exist. You are capable of achieving much, but it feels best to do and say nothing at all.

TAURUS (April 20 to May 20) Seek out the person who knows you best, and allow yourself the luxury of collapsing in their arms. You need some support but it can't come from a stranger.

GEMINI (May 21 to June 20) Your mood may fluctuate in unpredictable and unnerving patterns. You can't control your emotions, so follow them and enjoy the ride.

CANCER (June 21 to July 22) Relationships, both old and new, blossom in unexpected ways. Tell an old friend how much they mean to you, and create precious memories with your current partner.

LEO (July 23 to August 22) You are easily flustered now, and your feelings are extremely vulnerable. Find a save, private spot and stay there for awhile.

VIRGO (August 23 to September 22) Utilize twice as much caution as normal when dealing with others. Speak softly, keep a positive tone and save emotional outbursts for the privacy of your home.

LIBRA (September 23 to October 22) More may be accomplished through teamwork than by moving independently. Being part of a team will give you some emotional support right now.

SCORPIO (October 23 to November 21) The idea of a love affair appeals to you, but you don't have time to find the right person. Know that when the time is right, you won't need to look quite so hard.

SAGITTARIUS (November 22 to December 21) You feel particularly warm and loving toward everyone. Since you have achieved inner peace, you can support people without needing anything in return.

CAPRICORN (December 22 to January 19) The comforts and cares of the material world are particularly important right now. You have been dragged firmly down to earth and have no time for esoteric nonsense.

AQUARIUS (January 20 to February 19) Spend an evening out this week with immediate or extended family. Enjoy your time while reminiscing with siblings or cousins whom you haven't seen in a while.

PISCES (February 19 to March 20) There may be an excess of emotional demands placed on you. You can't answer to everyone immediately; tell people to give you more time.

YOU BORN THIS WEEK ... A bold approach is the best approach, and no challenge is too great. These are the mottoes by which you live. You like to be the best at everything – and you usually are. Physical and mental exercise are important to you. Be aware of your tendency to be overly competitive or combative.
