ARIES (March 21 to April 19) It's a good time to begin making long-range plans for major changes that lie ahead. A call might bring disappointing news, but a more positive message soon follows.

TAURUS (April 20 to May 20) Your emotional stability shows through as you deal with crises on the job as at home. Continue to believe in your capabilities. You have a way of inspiring others.

GEMINI (May 21 to June 20) Scorpio turns up to get you out of those romantic doldrums. On the job, don't let friendship override your personal ethics. Say no to that questionable request.

CANCER (June 21 to July 22) That Virgo still vacillates, but Copul has an Aries ready as a romantic replacement. Temper your tendency to be judgmental in a family situation. Tact is needed.

LEO (July 23 to August 22) Money problems could dog the Big Cat. Check that urge to splurge until you're on firmer financial ground. Personal relationships need your tender-loving care.

VIRGO (August 23 to September 22) Be patient. That confused personal situation is finally beginning to sort itself out. Get the full story before deciding what your next step will be.

LIBRA (September 23 to October 22) Several decisions need to be made, but all at once. Take time to recheck your information before you act; some data might be more fanciful than factual.

SCORPIO (October 23 to November 21) Don't waste energy trying to resolve that problem at work. Just keep doing what you do so well. Someone else will step in and set things straight.

SAGITTARIUS (November 22 to December 21) Keep your eyes steady—be fixed on your goal. Avoid time-wasting distractions. Some people might try to shake your self-confidence—balk them off instead.

CAPRICORN (December 22 to January 19) A former spouse or loved one to warm up his old relationship, for it is, but only after you've been reassured that those old problems have been fully resolved.

AQUARIUS (January 20 to February 18) Love signs are strong this week. Current relationships blossom with renewed expressions of affection. New relationships begin with much positive potential.

PISCES (February 19 to March 20) A proposed agreement with a trusted friend could run into difficulties. Be open to reasonable suggestions but respect anything that compromises your personal moral standards.

YOU WERE BORN THIS WEEK! You are a natural-born reformer. You try to make others live up to the standards you set for yourself. Your family and friends love you anyway.
