Salome's Stars

ARIES (March 21 to April 19) You might be the Zodiac's Sheik of Sheep, but Cupid could soon turn you into a doting little Lamb who wants to be somebody's very special someone.

TAURUS (April 20 to May 20) Your gift for creating order out of chaos might be severely tested, as problems continue to arise. Be alert. Someone might be trying to undercut your efforts.

GEMINI (May 21 to June 20) A romance that seemed to have a chance for a long run could be winding down instead. Take time to assess your true feelings before attempting to restart it.

CANCER (June 21 to July 22) More allies rally around as you deal with your workplace challenges. Things are much easier on the home front, where good news brings cheer to you and your kin.

LEO (July 23 to August 22) An unexpected complication might force you to change your usual travel plans. But instead of growling over the situation, see it as a chance for a new experience.

VIRGO (August 23 to September 22) That hazy atmosphere you've been living under is clearing up. Things become more defined and easier to deal with. Celebrate with that special person.

LIBRA (September 23 to October 22) Expect to learn some surprising facts about some people in your life, as you sort out a misunderstanding. Everyone benefits when the air is finally cleared.

SCORPIO (October 23 to November 21) Your aspects are positive for new ventures. As usual, let your sharp insight guide you as you consider a new undertaking. Travel is also favored.

SAGITTARIUS (November 22 to December 21) If you've been planning a career change, you could soon get some exciting news. Positive developments are also favored on the home front.

CAPRICORN (December 22 to January 19) A longtime relationship with a partner or spouse is put to a severe emotional test. Your strength and innate wisdom will help you get through the difficult times.

AQUARIUS (January 20 to February 18) Continue to make the needs of your loved ones your priority, despite distractions. Once things are settled in your personal life, you can deal with other challenges.

PISCES (February 19 to March 20) Go with the flow and let this new relationship develop before you make a commitment. Things you might have missed will come to the surface with time.

YOU WERE BORN THIS WEEK: You have a flair for the dramatic. You also have a hot temper, which you often struggle to keep under control.
