Say Good-bye to Starvation Diets Forever...

NEW SUPER PILL GUARANTEES SAFE, RAPID WEIGHT LOSS OR YOUR MONEY BACK!

Las Vegas,NV- Clinical research of a plant compound called *Amorphophallus Konjac*, derived from the roots of yam plants native to Asia, is being heralded as a "life saver" for the up to 50 million people who suffer from obesity in the U.S. And word is spreading rapidly throughout the 150 million Americans who go on weight reduction diets each year about the dramatic weight loss results from a product called FatStopper 2000, which contains this crucial ingredient.

CONTROLS "CRUCIAL FACTOR OF APPETITE"

According to Japanese medical doctor, Mutsuhiko Kuroki, "Losing weight with *Amorphophallus Konjac* (the active ingredient in FatStopper 2000) does not mean ingesting *Amorphophallus Konjac* into the body and letting it make you thinner in some mysterious way. Rather,[it] is not digested by the body but acts to help you reduce as it passes through the digestive tract. In effect, *Amorphophallus Konjac* helps you reduce by controlling that crucial factor of appetite and by working upon the digestive tract and its contents to promote improved metabolism and thus to speed the burning of excess fat."

- **Trim inches off your waistline.**
- **Reduce your hips by inches.**
- **Slim your thighs inches in 8 weeks.**
- **Flatten your stomach.**
- **Wear clothes long ago lost in your closet.**
- **Enjoy a totally new appearance.**
- **Regain a new and vibrant sex appeal.**

Considering the latest dieting statistics, which indicate that the average diet lasts only 72 hours because of hunger and frustration, it's no wonder that FatStopper 2000, with its all-natural active ingredient, is taking the diet industry by storm! With over 60 million Americans alone who suffer from high blood pressure due to excess weight, this new product is offer ing hope, help and dramatic results.

YOU EAT AS YOU NORMALLY WOULD AND STILL LOSE WEIGHT!

Clearly, the hardest thing you are ever told to do is change your eating habits. Because food not only nourishes your body, but also your emotional well being, changing what you eat can be almost impossible.The psychological stress imposed upon a person by altering the way he or she eats is usually enough to sabatoge a diet. That's why the huge success rate attributed to FatStopper 2000 can be easily explained. Because the product causes a feeling of fullness, you eat less. you don't have the desire to eat as much. You don't feel like you're on a diet-because you're not! You're simply choosing to eat less because you don't want more.

SAFELY FLUSHES FATS AND CALORIES RIGHT OUT OF YOUR BODY!

But no matter what you eat, the concentrated form of *Amorphophallus Konjac* found in FatStopper 2000 forms a non-digestible and harmless gel-like coating around food particles, causing the food to be digested at a slower rate. The gel slows the action of digestive enzymes to release sugars and fats at an even rate, causing excess fats and calories to be flushed right out of your body!

That's right! So whether french fries are your favorite comfort food, or your life isn't worth living without a bowl of ice cream-don't worry! The properties of FatStopper 2000 allow you to eat these whenever you like and still lose weight!

There are no special foods to buy, no calories to count, no dangerous drugs to take-and absolutely NO side effects! None!

You merely take FatStopper 2000 as directed-That's it! Within days you'll see noticeable results. And in clinical studies, some subjects lost up to 24 pounds in the first month and 48 by the second month! Remarkable!

If you're able to exercise moderately, that's great. If you're not there yet - that's fine too-you'll still lose the weight. Once you lose enough weight to feel comfortable walking or doing some other light exercise, you'll speed up your metabolism even further and tone up those sagging muscles. Get ready to look and feel healthier and more fit than you ever have!

INTENSIVE RESEARCH LEADS TO 6 PATENTS IN 5 COUNTRIES!

As an informed consumer, you'll be relieved to know that the ingredient in FatStopper 2000 formula has been awarded not one, but TWO United States Patents: the first one for its effectiveness as a weight loss product, and the second for its ability to reduce harmful cholesterol levels! And, the US is not alone in its embrace of this product. In fact, Japan, France, Germany and The United Kingdom have all awarded the FatStopper 2000 formula patents in their countries as well!

Clinical studies abound on *Amorphophallus Konjac* and have been conducted in some of the world's leading medical schools and universities. And the results of these intensive studies have been published throughout the world in major medical journals.

CAUTION: YOU MIGHT LOSE TOO MUCH WEIGHT!

You know the old saying about never being too rich or too thin. Well, you CAN literally be too thin. Given the potency of FatStopper 2000 to effectively help eliminate years of fatty deposits from your body while not causing you any side effects, you may be tempted to overdo it. Don't allow yourself to become too thin! You may need to regulate your pill intake, skipping a pill occasionally or even skipping an entire day or two. Have a weight loss goal in mind and try to stick to it.

- **LOSE up to 9 INCHES OFF YOUR WAISTLINE.**
- **LOSE up to 10 INCHES OFF YOUR HIPS.**
- **LOSE up to 7 INCHES OFF YOUR THIGHS.**
- **LOSE up to 7 INCHES OFF YOUR STOMACH.**
