October is Earthquake Preparedness Month
The theme being "Beat the Quake," prompts Kentuckians to take safety actions before an earthquake strikes.

Governor Paul Patton has proclaimed October as "Kentucky Earthquake Preparedness Month."
The theme being "Beat the Quake," prompts Kentuckians to take safety actions before an earthquake strikes.

Whoever you are in Kentucky, you face the risk of a damaging earthquake. Every Kentucky family needs an earthquake plan. Families should designate a friend or family member out of state who can serve as a point of contact for family members, many times it is easier to phone out of state than in state following a big disaster like a quake. Select a nearby assembly point for family members to reunite after a disaster. Choose a backup location elsewhere in your community, in case access to your neighborhood is impossible.

The good shepherd

Often and in so many ways the Old Testament and the New Testament are complimentary of each other but never in that more true than in the correlation between familiar and beloved twenty-third Psalm and the words of Jesus in the tenth chapter of John's Gospel.
Jesus speaks of Himself as the shepherd and makes it very clear that those who follow Him belong to the flock. As part of the flock, all the sheep know the voice of the good shepherd and obey Him and the good shepherd guides the sheep to the good pasture where they are nourished. The sheep find protection from whatever might harm them and nothing can separate them from the concern of the shepherd.
The pictures drawn by the two passages are so clear they need no explanation; nor do they require deep study or contemplation. For understanding it is clear that those called by the good shepherd, Jesus, will know the call and follow where led, forsaking the call of strangers who would lead them astray.
