**ERNIE FLETCHER**

6TH DISTRICT OF KENTUCKY

WINTER UPDATE • 2001

**Securing the Future of Kentucky's Environment**

**PFletcher Secures \$1 Million to Establish Bluegrass PRIDE**

On November 13, 2001, Rep. Ernie Fletcher announced the formation of Bluegrass PRIDE at a press conference at Fort Boonesborough State Park. Bluegrass PRIDE will fund environmental improvement projects throughout Central Kentucky.

"Kentucky's landscape and waterways are the most beautiful in the nation, and it is a disgrace to see them cluttered with litter and polluted with sewage. With Bluegrass PRIDE, we are going to work to return our waterways to something we can all be proud of," Rep. Fletcher stated. "The goals of Bluegrass PRIDE are simple - provide a safe, clean, healthy Kentucky that nurtures future generations and welcomes visitors with pride."

On hand to participate in the announcement were Natural Resources and Environmental Protection Cabinet Secretary James Bickford, Eastern Kentucky PRIDE Executive Director Karen Engle, Kentucky River Authority Executive Director Steve Reeder and LG&E/Kentucky Utilities Community Relations Specialist Shauna Damin.

Secretary Bickford, strongly supporting Rep. Fletcher's PRIDE efforts, stated, "You have the full support of me and the Administration. We will do whatever we can to make this thing happen. You've got a partner in us."

Bluegrass PRIDE expands Rep. Hal Roger's Eastern Kentucky PRIDE concept and will build on Rep. Fletcher's vision by combining federal, state and local efforts to provide funds for environmental improvement projects. It is the intention of the program to accept applications from local governments and non-profit organizations for independent grants

and/or loans to clean up dumpsites, install and update septic systems, replace straight pipes and perform other environmental projects.

Another important component of Bluegrass PRIDE is an environmental awareness and education initiative. It will provide children with hands on experience and understanding of the environmental issues that residents face in Central Kentucky. Bluegrass PRIDE will take its message to schools through both curriculum and first hand experience.

Rep. Fletcher has successfully secured two Federal grants totaling nearly \$1 million to launch this clean-up effort. Wishing to combine Federal, state, local and private resources, these grants will be maximized to create a cleaner, healthier Kentucky. The first grant, secured in the fiscal year 2002 VA/HUD appropriations bill, totaled \$485,000. The second grant, secured after the press conference, was for \$500,000 and was included in the fiscal year 2002 Crime, Justice, State and other agencies appropriations bill. Private companies will play a pivotal role in improving their local communities by investing in Bluegrass PRIDE. The Kentucky Utilities Company (KU) has already given \$10,000 to the effort, and other companies have expressed interest in the initiative.

Bluegrass PRIDE will help further Rep. Fletcher's commitment to providing cleaner water systems and a better environment for Central Kentucky. Since taking office in 1999, he has worked hard to create a funding base for Bluegrass PRIDE by securing federal funding for drinking water and wastewater projects in the Sixth Congressional District. These important projects include \$24 million for Lock and Dam 10 on the Kentucky River, funding for the Winchester Utilities Head Works facility in Clark County and funding for other projects ranging from sewer line extensions to water towers.

Rep. Fletcher announces the formation of Bluegrass PRIDE, along with Shauna Damin, Secretary James Bickford, Karen Engle, and Steve Reeder.
