ALL-A 10TH

Continued from Page 1
the entire weekend.
"It was a great weekend of softball for us," commented Nicholas County Coach Barry Bretz. "The errors we did make were from being aggressive and sometimes those things happen."
Nicholas County's Edwin Fryman, Tiffany Wilson and Hollie Bretz each made the 10th Region All-A "Classic All-Tournament Team."
Hollie Bretz knocked in all of Nicholas County's runs in the championship game, delivering both a double and a triple, each time Tiffany

Wilson touched the plate after singling to reach base. In the second inning, Bretz's triple also sent Britani Dale home to score after she had singled, as well as to give NCHS two on.
After falling to Nicholas County in the championship game, Paris dropped to 4-8. Sunday's win avenged a loss to Paris earlier in the season.
On April 9, Paris traveled to Nicholas County and edged the Lady Jackets 3-2. Bourbon County, the cross-town rival of Paris, dealt Nicholas County its only other loss to date on April 18, also by a score of

3-2. "We're two runs short of having a perfect record," Coach Bretz said.
Nicholas County had a 2-0 lead after five innings in the game played in Carlisle.
In the fifth, Jordan Letcher doubled and Bretz walked to give NCHS two on the base paths.
Edwina Fryman hammered a double scoring both runners to give the Lady Jackets a lead.
The sixth inning was not kind to NCHS as Bourbon County sent eight batters to the plate and scored three runs.
The Lady Colonels held NCHS to one base runner

in the bottom of the seventh and took the win.
Nicholas County will meet Somerset, the champion out of the 12th Region, on Friday.
Games are set at 6 p.m. and 8 p.m. in sectional play. The sectional is a best two out of three. Should the teams split the finals will be played May 2 in Somerset.
The state finals of the All-A, with the elite eight, will be played at Skyview Park in Jeffersontown.
"If we go down there and play we'll be okay," the coach said.
"We're not scared of who we draw we just have to

Jackets down West Jessamine in Jessamine event

NICHOLASVILLE - The Nicholas County High School baseball team posted a 1-2 record over the weekend at the Pete Boyse Honorary Showdown in Jessamine County, Nicholas County, under the guid-

ance of head coach Travis Sims, defeated West Jessamine, but dropped games to East Jessamine and Boyle County. East Jessamine and West Jessamine served as co-hosts of the tournament.

East Jessamine defeated Nicholas County 7-2 on Friday night in the Blue Jackets' tourney opener. The Jaguars made the most of a late rally, breaking open a close game. The game was tied at 2-2 in the bottom of the sixth inning when Elijah Jessamine made a significant

apprise. The Jaguars benefited from a walk, error and a bunt. East Jessamine strung together a couple of hits and stretched out some runs en route to the win.
Nicholas County defeated West Jessamine 7-4 in its second game played as part of the tournament.
"We had timely hitting and solid defense against West Jessamine," Sims commented.
Alex Florence recorded the win from the mound for the Blue Jackets. Kyle Campbell entered the game in the sixth inning and pitched the final two frames.
"The effort was great against West Jessamine," Sims added.
Boyle County sent the Blue Jackets out on a losing note, beating Nicholas County 7-1. Nicholas County had its chances in the

How does your turkey score?

Lucky turkey hunters often wonder how their trophy stacks up against other turkeys. The National Wild Turkey Federation (NWTFF) has an official wild turkey records program.

According to the NWTFF, the purpose of the program is to provide hunters throughout the world with a permanent record keeping system that will preserve information on all legally harvested wild turkeys taken in the spirit of fair chase.

Records are kept for Eastern, Florida, Rio Grande, and Merriam's subspecies. The Eastern subspecies is found in Kentucky.
Weight, beard length, and spur length are considered to determine a total score for wild turkeys.
The formula for overall score is: weight (lbs. and oz.) plus 10 times spur length (right plus left) plus two

times the beard length. The beard must be measured to the nearest 1/16 inch, from the center point of the protrusion from the skin to the end of the longest bristle.
Spurs must be measured to the nearest 1/16 inch, along the outside center, from the point at which the spur protrudes from the scaled leg skin to the tip of the spur.
Ounces and fractions of inches need to be converted to decimals.
Persons submitting records must be current members of the NWTFF. Hunters may join when the record is submitted.
For rules or an official application form, contact National Wild Turkey Federation, P.O. Box 530, Edgefield, SC 29824, or check out the NWTFF online at www.nwtff.org.
