Blue Licks Park staff prepares for busy summer

The staff members of the Blue Licks Battlefield State Resort Park are gearing up for a busy summer season, which will culminate with what many believe may be the largest re-enactment ever held there.

Of the total number of 24 Kentucky militia officers who participated in the re-enactment, including legendary Kentucky pioneer Daniel Boone, survived, was the revolutionary John Todd, commander of the force, who was killed along with 14 of his fellow officers.

Participants in the annual battle re-enactment focus on the park and excitement continues to build among re-enactors who are eager to participate in the year's event.

Garth is herself enthusiastic about the re-enactment process, which will result in an estimated force of 300 Native Americans led by Herod Moyamoc, and we've implemented several changes in the past year.

Authority members cautiously optimistic on jobs

Members of the Carlisle-Nicholas County Industrial Development Authority are cautiously optimistic as negotiations continue with a local government entity.

There's the obvious benefit with the increase in jobs to the community, but there would also be a positive ripple effect.

Authority members met with company representatives two weeks ago and responded again last week.

Members of the Authority have discussed needed modifications to the property (the former Jockey International sewing facility), with Kentucky Utilities representatives.
