ROOF COATING
Sta-Kool #780 Ultra White Silicized Roof Coating is the coolest and highest performing white roof coating available; we guarantee it! This product forms a thick, rubber shield that is modified with silicone resins to provide unbeatable waterproofing protection and adhesion. Sta-Kool #780 also reflects the sun's heat and destructive UV rays to drastically reduce roof temperatures. This results in a reduction of interior temperatures and cooling costs. This product is an "investment" which can actually pay for itself in savings on cooling costs.

ROOF COATING
A reflective and protective, fibred coating with aluminum flakes suspended in a tough and flexible vehicle of selected asphalt and solvent. Upon application, the aluminum flakes leaf to the surface to form a reflective metal shield that insulates against the sun's destructive rays, helping to reduce interior temperatures and provide savings on energy costs.

ROOF COATING
Our highest quality reflective aluminum coating, formulated to provide the brightest and longest lasting finish with a five year warranty. The high content of aluminum in this product enables it to form a brilliant silver shield to reflect the sun's destructive rays. Coating costs can be significantly reduced while the underlying roofing materials are protected and preserved. Super Bright serves as a great rust inhibitor and will aid in the prevention of corrosion for metal surfaces. This product also contains interlocking fibers which increase the life and durability of the coating. This premium product has a 5 year warranty and meets Energy Star, UL and ASTM performance ratings.
