HOROSCOPES

ARIES - Mar 21/Apr 20
There is stuff going on underneath the surface that needs your attention, though it may be that you've got to let it stay a mystery for a while longer. It all depends on how busy your day becomes!

TAURUS - Apr 21/May 21
You have strong control over your own life whether you like the direction it is taking or not. Making changes with your life path could be considered.

GEMINI - May 22/Jun 21
A lot of things are accomplished today, particularly in the work environment. Work, relationships and life in general seems to fit together rather nicely.

CANCER - Jun 22/Jul 22
You can't decide between two people or options that seem about evenly matched, but eventually you are going to need to step up and make the call.

LEO - Jul 23/Aug 23
In order to protect your feelings, you have to take a more impersonal point of view.

VIRGO - Aug 24/Sept 22
It's the factors that aren't immediately obvious that you need to understand today – though that is of course easier said than done. Take all the time you need and check in with multiple sources of information.

LIBRA - Sept 23/Oct 23
Make up your mind! Today spending too long making decisions won't benefit you. In fact, it could cause you some unnecessary grief.

SCORPIO - Oct 24/Nov 22
Can you avoid money? Today you may want to try! That's because today your judgment regarding the use of money is at below normal levels.

SAGITTARIUS - Nov 23/Dec 21
Relationship elevator going up. Today you'll want to spend more time with someone you find special. That's because today the stage is set for your relationships to improve and mature.

CAPRICORN - Dec 22/Jan 20
Stress is on your plate but you're dusting it off as if it were nothing, Capricorn. Be a role model to others who simply think that there's no way to multitask.

AQUARIUS - Jan 21/Feb 18
Today romance is a much greater possibility! So what can you do to improve your chances? You needn't say a word. That's because today your nonverbal signals are the key to making a connection.

PISCES - Feb 19/Mar 20
You may not be feeling as sharp as usual, no matter how much coffee you drink. It's a good day to relax and enjoy friends and family, but if you have to tackle paperwork, you may need to get support.
