

48 - 2008

This is Nicholas County

If you have chest pain and are anxious about the possibility of undergoing bypass surgery or angioplasty...

You might want to consider a non-surgical alternative.

Find out about a treatment that can provide relief from the disabling pain of angina--without the risks or costs of surgery.

A treatment for angina called EEC Therapy doesn't require invasive procedures. It's performed in 35 one-hour sessions--and you can go home immediately after each one.

Patients say that EEC Therapy is comfortable. In fact, they sometimes read, listen to music or even fall asleep during treatment. Many will tell you that EEC Therapy has changed their lives for the better.

For more information ask your Family Practitioner, Cardiologist or call our Cardio-Pulmonary Staff.
