

# LOG CABIN SIDING

The rustic beauty and comfort of a log cabin is now available for homes with conventional wall construction. Graham offers the best of both past and present through its log cabin siding. The shipping designed log cabin siding allows the builder to select his insulating materials as well as the thickness of the walls.

**Gardner Asphalt Driveway Sealer**  
\$9.99  
5 GAL

A superior coat for pitch extrusion sealer for asphalt surfaces. Resists gas and oil damage and protects from weathering and freeze-thaw erosion. Cures to a hard satin finish in approximately 4 hours. Five gallons covers 300-375 square feet depending on the surface. Do not use on concrete, flagstone, brick or clay surfaces.

**ROOF COATING**  
She-Kool #700 Ultra White Siliciumated Roof Coating is the coolest and highest performing white roof coating available on the market. It is a rubberized asphalt that is modified with silicium resin to provide substantial water-proofing protection and adhesion. She-Kool #700 also reflects the sun's heat and destructive UV rays to drastically reduce roof temperatures. This results in a reduction of interior temperatures and cooling costs. This product is an "investment" which can actually pay for itself in savings on cooling costs.  
**\$58.68**  
5 GAL

**ROOF COATING**  
The highest quality reflective aluminum coating. Formulated to provide the brightest and longest lasting finish with a low fire-retardant. The high content of aluminum in this product enables it to form a brilliant silver shield to reflect the sun's destructive rays. Cooling coils can be significantly reduced with the underlying roofing materials (asphalt and plywood). Super Bright serves as a great roof insulator and will last to the lifetime of the structure for most markets. The product also contains interlocking fibers which increase the life and durability of the coating. This premium product has a 1-year warranty and meets Florida UL and ASTM performance ratings.  
40% Reflectance Rating  
Approximately 18 in. per gallon  
Approximately 18 in. per gallon  
**\$48.41**  
5 GAL

**ROOF COATING**  
A reflective and protective, fibrous coating with aluminum flakes suspended in a tough and flexible matrix of selected asphalt and solvent. Upon application, the aluminum flakes lie to the surface to form a reflective shield that deflects solar radiation, reduces heat gain, helps to reduce interior temperatures and provide savings on energy costs.  
40% Reflectance Rating  
Approximately 18 in. per gallon  
75 sq. ft. per gallon over roofing  
**\$39.40**  
5 GAL

**NONFIBER FOUNDATION AND ROOF COATING**  
LIQUID DAMP-PROOF SEAL, SEALS BELOW GRADE EXTERIOR WALLS. USE FOR REPAIR OR NEW CONSTRUCTION. UNDERGROUND WOOD AND PILES. LIGHT BRUSH GRADE. MAYBE USED AS AN ANTI-CORROSION COATING FOR BELOW GRADE STEEL AND METAL PIPING. PROTECTS FROM WOOD FOOTING AND TERMITES.  
**\$24.12**
