THE CLASSIC

"The Classic" *EZPole*' series comes in 13', 17', and 21' lengths. The flagpoles come in two finishes: anodized **polished aluminum finish,** and **powder coated white.** This pole comes with a swivel and button system which allows for flying 2 flags and half-staff flying without the use of a rope.

Sectional flagpole kits have 3, 4, or 5, 56" sections, depending on length purchased. These sections appear seamless as they neatly assemble together.

Our sectional poles are 2" in diameter and are 16 gauge aluminum. The flag attaches with 2 stainless steel clips.

EZPole' swaging is a full 1.5" deeper than most sectional poles. This assures added strength and durability under tough weather conditions.

Polished Aluminum Finish

13' Pole with 3'x5' Sewn Nylon Flag	C13S3
17' Pole 3'x5' Sewn Nylon Flag	C17S3
21' Pole with 3'x5' Sewn Nylon Flag	C21S3

$89.99 ***C17*** ***$99.99*** ***C21***

THE DEFENDER

"The Defender" *EZPole*' series comes in 13', 17', and 21' lengths. The flagpoles come in two finishes: anodized **polished aluminum finish,** and **powder coated white.** A traditional halyard is used to raise and lower flag. The flag attaches with 2 locking nylon clips.

All our *EZPole*' flagpoles come with a 3' x 5' sewn nylon flag.

The poole is topped with an anodized gold color ball. Each pole also comes with an instruction sheet, flag etiquette leaflet, and a list of flag holidays.

A polycarbonate truck (pulley) is used for strength. A riveted cleat is used for tie-down.

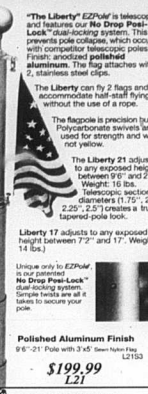
Individual flagpole parts are available. All poles are deburred for safety. All poles come with an aluminum, in-ground sleeve.

Polished Aluminum Finish

13' Pole with 3'x5' Sewn Nylon Flag	D13S3
17' Pole 3'x5' Sewn Nylon Flag	D17S3
21' Pole with 3'x5' Sewn Nylon Flag	D21S3

$89.99 ***D17*** ***$99.99*** ***D21***

THE LIBERTY



"The Liberty" *EZPole*' is telescopic and features our **No Drop Posi-Lock™** dual-locking system. This prevents pole collapse, which occurs with competitor telescopic poles. Finish: anodized **polished aluminum.** The flag attaches with 2, stainless steel clips.

The **Liberty** can fly 2 flags and accommodate half-staff flying without the use of a rope.

The flagpole is precision built. Polycarbonate swivels are used for strength and will not yellow.

The **Liberty 21** adjusts to any exposed height between 9'6" and 21'. Weight: 16 lbs. Telescopic section diameters (1.75", 2", 2.25", 2.5") creates a true, tapered-pole look.

Liberty 17 adjusts to any exposed height between 7'2" and 17'. Weight: 14 lbs.)

Unique only to *EZPole*', is our patented **No Drop Posi-Lock™** dual-locking system. Simple twists are all it takes to secure your pole.

STORM DRAIN GARAGE PACK

$99.99
3815602

Garage pack contains: 3 pieces of storm drain channel with grate, one end cap and one end outlet

Manufactured from 100% recycled plastic

Channels and grates are rated for 5 tons or 10,000 lbs

Cross braced ribs are designed into the body for strength and rigidity

Anti-flotation channel prevent floating when encased in fill material

Built in bottom outlet accommodates 4" sewer and drain pipe.

U shaped channel and corners are designed to prevent water pooling.

Channel lengths are interlocking, no clips required and are "Quick Fit"

Channel grates clip in and out, no screws required

Channel grates are concave to more efficiently trap/transfer water

End caps, outlets, and leaf guards are "Quick Fit", no solvents required

All items are UV inhibited
