ford, counties. One of the victims was not wearing a helmet.

Through June 15, preliminary statistics indicate that 330 people have lost their lives on Kentucky roadways during 2008. This is 55 fewer than reported for this time period in 2007. Of

the 260 motor vehicle fatalities, 166 victims were not wearing seat belts. Of the 32 motorcycle fatalities, 18 were not wearing helmets. Seven people have been killed in ATV crashes and 6 of those were not wearing helmets. Thirty pedestrians have been killed. A total of

61 fatalities have resulted from crashes involving the suspected use of alcohol. Citizens can contribute to highway safety by reporting erratic drivers to the Kentucky State Police toll-free at 1-800-222-5555. Callers will remain anonymous and should give a description of

the vehicle, location, direction of travel and license number if possible. These statistics are still preliminary as KSP waits for all local law enforcement agencies throughout the state to report any crashes and fatalities that may have occurred in their areas.

a degree, but there were times when I didn't think I would make it. There were times when I was pulling all nighters studying, knowing I had to go to work the next day, when I looked why I was doing it, if it was really worth it.

Looking back and considering the sense of accomplishment this has given me - having persevered and pushed through to the end - it was definitely worth it. I may not be a forest ranger or a stuntman, but at least it's something.
